Driving Errors, Speed, Passing Cause Accidents

While studying plans for Nebraska Safety Patrol activity aimed to curb the steady increase in traffic fatalities, Colonel C. J. Sanders, head of the Patrol, today appealed to the motoring public to recognize and avoid the driving errors which most frequently result in traffic accidents.

"Carelessness and inattention to other traffic signals, and road signs are the basic cause of some of the obvious violations such as excessive speed and improper passing which actually produce the so-called accident. Those factors, coupled with the heavier summer traffic, greatly increase the accident possibilities and should bring to the realization of all drivers, bicycle riders, and pedestrians that personal responsibility for safety in traffic is not to be taken lightly." As of June 12, the traffic toll stood at 119, 5 more than for the same date last year; a year, which in terms of lives lost, was the worst in Nebraska's traffic history. The month of May produced 13 more deaths than the same month last year.

To prove his point that traffic law violations and traffic accidents go hand in hand, Sanders reported that during May the Patrol's arrest activity reached a new high for any one month in 1952 when 2,093 summons tickets were issued. An additional 2,221 warnings were given and 6,682 violation cards were issued for faulty equipment. Fines paid to the courts totaled \$33,647.60. The Patrol's activity summary also showed that 1,172 stranded motorists were aided, 96 traffic safety programs were presented and over 700 obstructions were removed from the highways.

Marine Reserve Training Program Nearly Ready

Final preparations have been made for the Marine Air Reserve Training program being held at the Naval Air Station in Lincoln, Nebraska, this summer, according to Lt. Col. Bruce Prosser, Commanding Officer of the Marine Air Detachment.

The Colonel stated that openings still exist for young men between the ages of 17 and 18½ in the 30 day "boot" training portion of the program which starts on the 22nd of July. New recruits joining VMF-113, Lincoln's Marine Air Reserve Squadron now may participate in a total of 45 days active duty for training at the Naval Air Station this summer by electing to attend, in addition to the 30 day "boot" training, a 15 day annual maneuvers. Those who enroll for this program will receive full pay and allowances which amounts to approximately \$280 for a private in addition to clothing, dental and medical care.

The 30 day training will be a streamlined version of the regular Marine Corps "boot" camp. The syllabus will cover arms and equipment, combat conditioning, marksmanship, combat principles, map reading, chemical warfare, close order drill, and other basic military subjects.

State Seeks Bids For Gravel South On Nehawka Road

Contractors will be asked to bid on supplying and placing more than 1,700 cubic yards of additional gravel on 11 miles of highway No. 67 between Dunbar and the intersection with U. S. No. 24 near Nehawka at a Department of Roads and Irrigation letting July 10, according to State Engineer Harold L. Aitken.

The work is in Cass and Otoe counties, with bulk of the work to be done in Otoe county.

of Omaha, Mr. and Mrs. Clyde Jones, Mrs. W. A. Jones, Mrs. Ralph Zeorian and Mr. and Mrs. Clinton Jones and family.
