### Tips Offered On Waxing Floors

All floor finishes — oil seal, varnish and shellac — should be waxed every four to six months. Extension Home Economist offers this suggestion:

Shellac floors should not be waxed with preparations containing water. Use a tar wax on shellac instead of a water emulsion wax.

To keep floors clean between waxings, all you have to do is sweep and dry mop them. For dry mopping, use a soft cotton material kept barely dampened with a mixture of three parts kerosene and one part paraffin oil. When the mop gets dirty, wash it out in hot water and soap, dry it, dampen it once more with the kerosene and paraffin preparation.

### Capitol News

(Continued from page 4) provided for by the 1951 Legislature will be in operation by the end of this year, the State Highway Department has announced but it took some prodding from Gov. Peterson to get action on the construction.

So far, only two scales are in actual operation — at North Platte and Holdrege. Contracts have been awarded for two more near Wahoo and Plattsmouth. Others will be built at Fremont, Hebron and Waverly. Location of the remainder has not yet been decided.

A highway Department spokesman said the stations cost about \$30,000 each to build, including \$2,000 for the scales. They will be manned by State Safety Patrolmen.

### PHILANTHROPY

Publicly announced gifts for philanthropic purposes increased 15 per cent in ten cities of the nation in the first six months of 1952 over the corresponding period of 1951, according to a study by the John Price Jones Company, fund-raising consultants. This raised the total for the ten sampled cities from \$202,207.974 in 1951 to \$233,014,737 this year.

Helpful hint for presidential candidates: If you must go out for write-in votes, be sure your name is something easy like Smith or Jones, instead of Ke-fauver or Eisenhower.
