## "Get Out The Vote" Plan Told By Legion Auxiliary

The American Legion Auxiliary met at the 40 & 8 club Thursday evening with President Mrs. Sophia Wolever conducting the meeting.

Reports were given by the various committees. Mrs. Helen Woolcott, legislative chairman, disclosed that she is working on a "get out the vote" program. She suggested that members call friends and urge them to vote. It is important that every woman exercise her right, Mrs. Woolcott said.

Miss Ruth Patton and Miss Alice Jayne Grosshans were appointed by Mrs. Woolcott to assist with the program. A letter from Genie McGlasson, hospital chairman, asking for gifts for the hospital gift shop, was read. Gifts are made or purchased by units and sent to the hospital, where they are displayed for patients to select for their loved ones at Christmas time. Each member has been asked to make a gift and the unit will buy a doll to be dressed by Mrs. Woolcott.

President Wolever announced that Mrs. Helen Vroman, membership chairman, had reported reaching the goal of 110. Back dues are still being received.

The unit voted to form a junior group and currently Miss Sharon Dunlap is the only junior member. She has been a member since birth. Mrs. Leonard Brothers was appointed leader. Veteran's children up to 18 years old are urged to contact Mrs. Brothers or Mrs. Wolever about the junior unit.

In other action, the unit voted to have its regular smorgasbord on November 8. An apron sale will be held at the same time. Cora Baumgart was named

## Former Plattsmouth Woman To Join Husband In Asia

Mrs. Leonard J. Snell arrived last week from Washington, D. C., where she with Mr. Snell have been attending the Foreign Service Institute studying a course on the continent of Asia, the peoples and their customs as well as the Persian language, preparatory to a foreign assignment in Afghanistan.

Mr. Snell, who has been in charge of the Rapid City, S. D., U. S. Geological Survey for the past five years has been loaned to the State Department for service as a technical advisor to the Afghanistan government under the Point Four program. This program offers technical cooperation to under developed countries that request it. He expects to remain in Afghanistan for a two year period and will be stationed at Kandahar, where he will serve as a technical advisor in hydrology and teach the natives how to conduct surface water investigations.

Mr. Snell has a B. S. degree from the University of Minnesota and has served with the Water Resources Division of U. S. Geological Survey in Idaho, Iowa and South Dakota. A lieutenant commander in the Seabee Reserves, Snell states Afghanistan is still a primitive country and the natives need assistance in the development of their water resources. He will teach the natives to make stream flow checks, snow runoff forecasts and other water investigations. An American contractor is building a three and a half million acre feet reservoir for irrigation purposes on the Helmand river. Snell said both Iran and Afghanistan irrigate from this river.

The original plan was for Mrs. Snell to accompany her husband on this foreign assignment but because of inadequate, unsatisfactory housing at this time she will remain for an indefinite stay here with her mother, Mrs. Blanche Price and other relatives.

Mrs. Snell is the former Helen Virginia Price. En route to Washington the Snells visited his mother and relatives at Crystal Falls, Michigan.
