The answers to everyday insurance problems*
By STEVE DAVIS

QUESTION: Is it necessary to tell an insurance Company that there is a mortgage or time payment contract on a car?

ANSWER: Yes. There is a place for that information on all auto insurance applications and to withhold it would be to make a false application. If the car is mortgaged after the insurance has been placed the Company must be notified.

* If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.
