settled and hops out. His last attempt at freedom seems to be a success as no trace of the prodigal frog can be found. Mrs. Noell hopes he is the hardy type and continues living until he is found.

Gents Prove Their Capable Hosts at Church Function

The Young Married Peoples class of the Christian church held a party for the ladies of the class on Friday night in the basement of the church. The men of the class cooked and served waffles and sausages. The waffles were made from their own favorite recipe. After being served the ladies relaxed to watch the gents do the dishes. The boys looked so charming in aprons of various sizes and shapes and proved themselves quite capable in the kitchen. After they finished their work the men entertained with games of their choice. Charades was played and the class discovered several versatile actors. R. A. Noell did very well on a slipping and sliding act. Val Johnson, the minister, proved to be the most able dodger in a swatting game. It is believed he has practiced quite a bit. In another game Bert Worthan was "willed" an entirely new type spittoon for future use. His wife, Donna, seemed to object strenuously to such use of the thing willed to Bert. Sheldon Smith seemed to fare best as he was "willed" more than any guests there. All ladies present agreed at the parties end that this should be done more frequently. Twenty-five guests attended.

Mrs. Fred Hild was honored with a birthday dinner on Sunday, February 1st. Eighteen guests attended.

I chose an
Electric Range
because it's so...
Economical!

GREATER EFFICIENCY AND
LOW OPERATING COST
MAKE FOOD DOLLARS GO
FURTHER WHEN YOU
COOK...
Electrically

Yes, I chose an electric range because it was easy to see that here was real economy! From the very beginning my electric range has saved us money! It cost so little to install and operate! Actually, I cook for four healthy people, for a whole month, for less than the cost of a carton of cigarettes for electricity! Budget-wise, our electric range is the best investment we've ever made!

Of course
It's **ELECTRIC!**

Thrifty Homemakers have known for a long time that an electric range saves up to 20% on meat shrinkage! Thick insulation on all six sides of the oven means greater roasting and baking economy! Surface units that put all of the heat where it belongs, into cooking the food, reduce excessive heat loss and keep kitchen temperatures down to a cool, comfortable level!
