He said the purpose of the meeting was to determine the amount of interest in the community for a Vocational Education program in the lines of Vocational Agriculture and Home-making.

Both of these programs would be of advantage to the school. Superintendent J. R. Piper told the group that if this program was desired in the Weeping Water schools that it would be introduced in the right way and by qualified instructors, with the help of the community.

"Why do I have to pay income tax on money I never get?"

(THAT'S A GOOD QUESTION... and one that thousands of farmers are now asking!)

Co-op spokesmen and promoters have told Congress that the reason co-ops should continue to get exemptions from Federal income taxes is that YOU, Mr. Farmer, pay the tax even though in most cases you get little or nothing in the way of cash with which to pay it. The co-op keeps that cash, tax-free, for its own purposes, merely "allocating" its profits to you in the form of scrip, certificates or mere book entries. Federal regulations require that YOU, Mr. Farmer, must pay a tax on these in CASH although you get LITTLE OR NO CASH and, in many instances, never will.

This tax injustice is a high price for you to pay in order that co-op promoters may continue to manipulate income tax exemptions for the profits of their huge commercial businesses. Farmers know that it is only right and fair that the Income Tax should be paid by the Co-op Corporation which actually makes and keeps the money. Farmers, more and

more, are resenting the manipulations and double-talk that have brought about tax exemptions for cooperative corporations while, at the same time, have resulted in loading an income tax liability onto YOU on "income" you do not receive in cash... and probably never will!

This obviously unfair situation demands correction... now! Congress is now engaged in making income tax changes, revisions, and closing loopholes. It is high time that YOU join other farmers in vigorously protesting the discrimination that allows cooperative corporations to pay little or no Federal income tax on their corporate profits, while forcing YOU to pay an income tax in cash on "allocations" consisting of pieces of paper or credits of an indefinite nature. This injustice can be corrected if you act now. Let your Congressman and Senators know that you do not like this unfair deal!

PROTEST

this tax injustice to your Congressman and two U. S. Senators! Demand that the co-op's tax be put where it belongs... on the cooperative corporation which actually makes and keeps the profits.
