Service Station Operators Big Tax Collectors

The fact that speeding is the greatest cause of auto accidents and fatalities, doesn't only reflect on motorists on the highway.

At least C. E. Shellenbarger, Sinclair service station operator here, explained that motorists are in just as big a hurry while having the gas and oil checked at a filling station. It was one of the sidelight comments of Shellenbarger as he outlined phases of the service station business to fellow Rotarians here Tuesday noon.

"Every customer is always in a hurry," Shellenbarger said. "It doesn't make any difference whether they are going any place or not."

He told the Rotarians that service station operators are big time tax collectors in Nebraska. The recent one cent gas tax increase voted by the legislature will mean that service station operators will collect an additional 4 1/2 million dollars in taxes. And all for free. About 70 million dollars will be collected by Nebraska dealers this year.

Shellenbarger also pointed out that giving free information is one of the big jobs for service station attendants. He explained that service, price, convenience and location are important in the business.

At the session, Rotarians also learned that the Plattsmouth club had 100 percent attendance a week ago. Attendance at the Tuesday meeting was greatly increased by a number of visiting Rotarians and guests. Visiting Rotarians included Larry Owen, Adrian Newsom, J. J. Long, S. S. Duffy, Harold E. Foutz and Harry M. Von Drock of Nebraska City; R. J. McPherrin and William Rathke, past district governor, of Glenwood; and Lawson Perkins of Omaha.

Howard Hirz presided at the meeting.
