Perfume Problem Answered

Q.—Dear Fenny: I love the idea of stick perfume—but it is so messy to handle. The foil tears, the stick melts, shrinks and quite often breaks when used. Do you know of a stick perfume that's convenient and practical to use?—Mrs. R. V. C.

A.—Yes! One outstanding performer has just created a wonderful stick perfume—but it is like a lipstick. Just "twirl" the case and apply! No foil to bother with—no melting—no shrinking—no breaking—no messiness! You'll want to tuck it in your purse and take it with you everywhere you go! Just ask for Houbigant Chantilly SWIV-ELSTICK. \$1.50 plus tax at
