It's time to check grain in storage. More wheat was farm stored this year than in years past. It will be wise to see what condition the grain is in. Stored grain insects multiply mighty fast. Don't let them rob you while you sleep.

Stop That Picker!  
Corn harvest is in full swing on many farms and nearing completion on many others. The old corn picker is a hazardous machine to operate if safety precautions are ignored. Save that finger, hand, arm, leg, or life. Stop the picker!

Legume Seeds Can Be Stored 3 To 4 Years  
As a general rule most legume seeds can be safely held for three to four years without any appreciable reduction in germination, says agronomist at the University of Nebraska.

In a series of tests conducted several years ago, alfalfa seed still had a 59 per cent germination after ten years. These storage conditions were in a dry airy room.

Controlling of Bindweed  
Let the bindweed make quite a lot of growth this fall, then spray with 2,4-D about the middle of October. This will do a fairly good job of eliminating many of the bindweed, says the agronomist at the University of Nebraska.

SCHOOL SAVERS  
More than 3,450,000 pupils in 10,000 grade and high schools hold \$113,000,000 in school savings accounts in 500 banks throughout the country, according to a report by the American Bankers Association. The figures compare with about 3,300 pupil depositors owning about \$92,000,000 a year ago.

NEW HOMES  
The nations non-farm home owners increased by five million in the last five years, with the demand for houses still apparently strong, according to the Federal Reserve Board.

### Hughes To Head March Of Dimes Drive In Dime

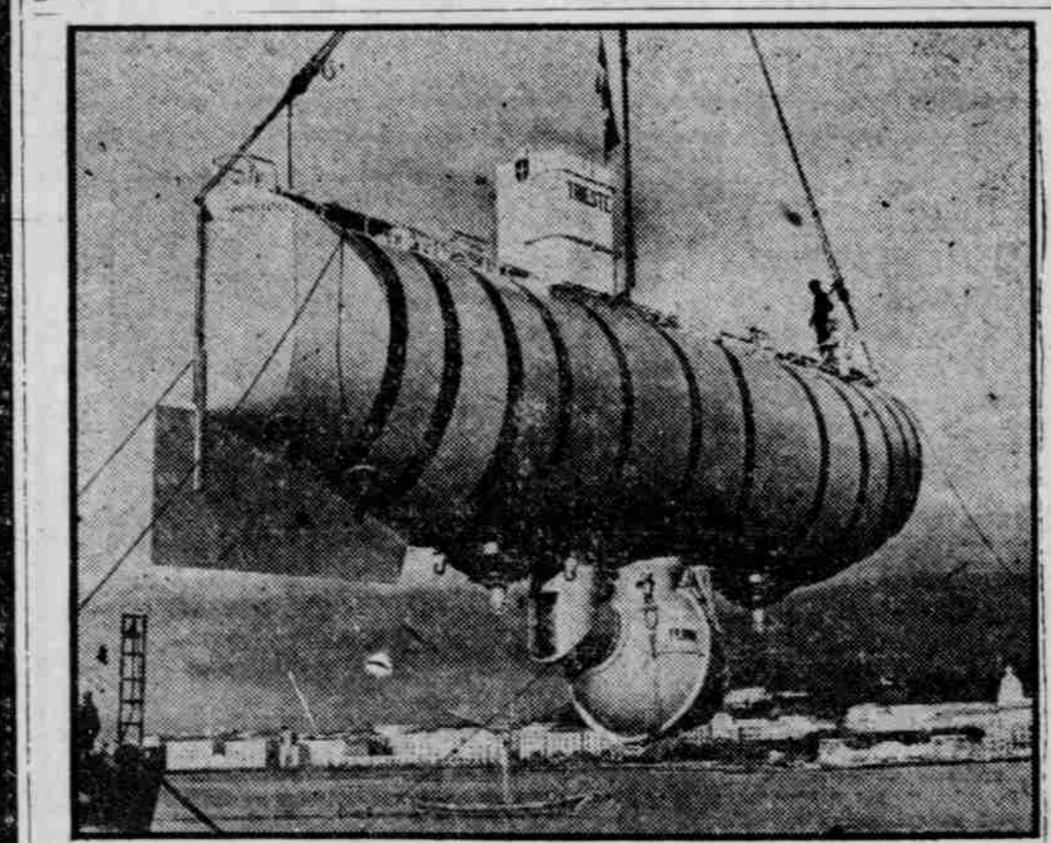

Ted R. Hughes, Seward businessman, again will head the Nebraska March of Dimes next January. Basil O'Connor, president of the National Foundation for Infantile Paralysis, announced here today.

This will be Mr. Hughes' second consecutive year as volunteer head of the National Foundation's fund-raising drive in the Cornhusker state. The March of Dimes raises funds for research, professional education and patient care in combatting poliomyelitis.

### Cass County Extension Notes

4-H Work Goes On  
With the grand finale of the Cass county 1953 4-H club program coming up on October 29, with the Annual 4-H Achievement Party, a few clubs are getting all set for 1954. In fact, some clubs are organized and started on the new program. Time goes by so rapidly that sometimes it is a rush to get all the work done. Therefore, it is urged that all clubs organize early. Youngsters interested in joining a club for the first time may get information from the Extension office in Weeping Water. Remember the early bird gets the worm.

GOING DOWN—This strange-looking craft is just the opposite of the sky-raging blimp it appears to be. It is Prof. August Piccard's bathysphere "Trieste," in which he will attempt to set a new record for descent into the sea. The Swiss scientist will make the descent inside the steel "bubble" protruding below the hull. The bathysphere is pictured at Castellamare Harbor, Italy, where it was refitted after Piccard's August attempt off the Island of Capri.

STEPS TOWARD SAFETY—Hollywood starlet Rita Moreno has no fear of the ladder slipping—thanks to a new gadget designed to prevent just that. The device consists of shoes and stabilizers attached to the feet of the ladder.

**BUSINESS ACTIVITY**  
The Department of Commerce reports that the truce in Korea has had "little immediate effect" on the nation's booming business. Business this summer was the best for any summer on record, with private and Government spending continuing strong.

**"WETBACK" PROBLEM**  
The Federal Government plans to increase its border guard

along the Mexican border from 300 to 500 officers in an effort to curb the illegal infiltration of Mexican workers into this country.

**MARRIED WOMEN WORKERS**  
The chief reason why more married women are working now than ever before is the need to supplement the family income, according to the Labor Department.
