Are these

to be his

Graduation Present?

- You can't buy him new eyes!
- You can give him . . .
- Modern, Adequate School Lighting!

Only three out of every one hundred children are born nearsighted, BUT forty-one out of one hundred are nearsighted when they reach college! Why? CONTRASTS, GLARE and SHADOW, the three insidious classroom enemies of young eyes have been shown to be major contributing factors to these deplorable statistics.

These factors can be eliminated by good, properly planned, modern school lighting! The cost of Better Light for Better Sight is low. The cost of poor lighting in damaged eyesight, bad posture and poor scholarship is tremendously high! NOW is the time to investigate and plan for Better Light and Better Sight for your schools!

FREE INFORMATION!

For further information on modern school lighting contact your nearest CONSUMERS PUBLIC POWER DISTRICT office. We will be glad to assist, in any way possible, in planning for better lighting for your schools without cost or obligation!
