11:00 a. m. Morning worship.

## Bible Comment: Moses Is Credited With the Building Of Jewish Nation

IT is one thing to deliver a people from bondage, but another thing to build them into a strong, sound and prosperous nation. That was a lesson that Moses learned, and it is a lesson that we are learning in these days of world wars.

In the Old Testament, and the New Testament as well, it is Moses who is recognized as the founder and builder of the national and religious life, following the return of the Hebrews from Egypt.

One cannot tell, even after consulting the seemingly best authorities, how much of Jewish law and ritual was based upon the original foundation laid by Moses. But it is notable that the authority of Moses was attributed to whatever came later.

First and probably basic was the insistence upon racial and national unity as the essential means of strength and preparedness. Strong interdict against mixed marriages and utter destruction of enemies were sought to achieve this unity.

Though such measures seem unjust, the principle of unity is sound. No nation with intermingled races can be strong unless all elements are built into one united people, as they are in this country and Canada.

Moses built upon the foundation of religion. The harshness of various measures was designed to prevent idolatry and the running of the people after strange gods. The integrity of religious life, allowing for freedom of faith, must be as valid today as it was then.

Much, undoubtedly, in law and ritual was directed toward the maintenance of good health in the individual and society.

Much, also, was designed to prevent social abuses—the strong overriding the weak, antisocial and immoral, and unneighborly.

How much the world needs a Moses!

6:30 p. m. Young people's meeting. A study in the book of Genesis.  
7:30 p. m. Evening worship.

For those interested in a deeper prayer life there is a cottage prayer meeting each Tuesday night, 7:30.

**CHRISTIAN SCIENCE SERVICES**  
Man's spiritual unity with God, as taught and lived by Christ Jesus, will be brought out at Christian Science services Sunday in the lesson-sermon entitled "Doctrine of Atonement."

Keynoting the lesson-sermon in the golden text from I Timothy: "There is one God, and one mediator between God and men, the man Christ Jesus; who gave himself a ransom for all, to be testified in due time." (2: 5, 6).

The following passage will be among those read from "Science and Health with key to the scriptures" by Mary Baker Eddy.

"We acknowledge Jesus' atonement as the evidence of divine, efficacious Love, unfolding man's unity with God through Christ Jesus the Way-shower; and we acknowledge that man is saved through Christ, through Truth, Life, and Love as demonstrated by the Galilean Prophet in healing the sick and overcoming sin and death." (497: 13).

From the Bible the following verses will be among those read: "Therefore if any man be in Christ, he is a new creature; old things are passed away; behold, all things are become new. And all things are of God, who hath reconciled us to himself by Jesus Christ, and hath given to us the ministry of reconciliation—now then we are ambassadors for Christ, as though God did beseech you by us: we pray you in Christ's stead, be ye reconciled to God." (II Corinthians 5: 17, 18, 20).

**UNITED PRESBYTERIAN CHURCH**

We extend to all a meaningful and sincere wish for an Easter that helps you to "know Him, and the power of His resurrection, and the fellowship of His sufferings, being made comfortable unto His death." Phil 3: 10.

**Ag Practices Help Pheasant Depopulation**  
What has happened to the pheasant and how can we get it back is the question among farmers and sportsmen of Nebraska as well as the adjoining states.

The Nebraska Game Commission feels that one of the major causes of the decrease in the pheasant population is due to the changes in agricultural practices with the recent cultivation of all types of land along with the removal of much of the brush and hedgerow type of cover that formerly was in abundance.

In addition, new insecticides, weedicides and promiscuous burning practices have further reduced cover for wildlife. In an effort to try to compensate for these negative practices, the Nebraska Game Commission's Habitat Planting Crew, under the Pittman-Robertson Federal Aid program and directed by Mr. Wade Hamor, will plant 1,394,000 trees and shrubs in 65 counties. Mr. Hamor announces that arrangements have been made with cooperating farmers who in addition to the above planting, will cooperate with the commission by themselves planting 314,700. The Soil Conservation Service in turn will plant 23,99 making a total of 1,732,690 trees and shrubs which will be planted on the land for wildlife by the Commission, the farmers and cooperating clubs and agencies. All planting stock is furnished by the Commission.

The much publicized and discussed multi-flora rose is well represented in this planting with 11 southeastern counties receiving 170 miles of rose-fence. The other plantings will be placed on 262 separate wildlife plantings averaging two acres in size.

It is the hope of the Commission that all wildlife clubs, farmer operators and individual wildlife clubs will join in the program to provide a better place for wildlife to live.

The Commission feels that spraying and burning and shrub removal activities have been carried far beyond any practical needs and encourages cooperation in providing adequate clover meadows, brushy canyons or regular wildlife areas for nesting cover this spring for the birds—particularly the pheasant and quail.

**ALVO NOTES**  
Mrs. Mabelle Winn  
Phone 420  
Mr. Geo. Foreman was a Sunday dinner guest of Mr. and Mrs. Dan Rueter. He attended church at Alvo Sunday morning.

**TIMELY TIPS**  
A quart of milk everyday for each child and at least a pint for each adult is recommended. Since milk supplies protein, fat, several vitamins and minerals as well as calcium, it is an essential food for persons of all ages. Calcium is the nutrient supplied by milk that is least likely to be provided by other foods. About 2 percent of the average weight of the body is calcium. The greatest portion of this is in the bones and teeth but it also is present in all body fluids and cells. Milk is necessary for the proper functioning of the nervous system, the muscles and certain enzyme systems.

Some women do not use enough milk because they consider it "fattening." No food is fattening until the total calories eaten and absorbed exceed the total needs of the body for calories. By using skim milk a person could have all the calcium and other nutrients of milk (except the fat and vitamins associated with fat) yet have relatively few calories. One cup of whole milk provides about 166 calories while the same amount of skim milk contains only 87 calories.

**Several Attend Recent Wedding**  
Those from Alvo attending the Nickle-Evers wedding at Hickman Friday night, were Mr. and Mrs. Sam Hardnock, Mr. and Mrs. Forrest Hardnock and Jerry, Mr. and Mrs. Ellis Mickel, Mr. and Mrs. Lloyd Mickel, Mr. and Mrs. Harold Mickel, Mr. and Mrs. Orville Gerbling and Gwen, Mr. and Mrs. Harvey Heier, Mr. and Mrs. Emil Reike, Mr. and Mrs. Mike Bornemeier, Mr. and Mrs. Hweichel and Junior, Mr. and Mrs. John Weichel, Jerry Hardnock was ring bearer. Mr. and Mrs. Nickel will live in Lincoln.
