### BOOST IN FEEDER SALES

A buying rush for feeder cattle and pigs to clean up down corn may develop due to corn borers. Early reports of damage have been alarming. Don't try to outguess the market on the low price for feeder cattle and hogs. Buy whenever the price is at a figure where you can show the desired profit.

**SPEND PENNIES**  
Seed treatment of winter wheat is cheap insurance for control of stinking smut and some other diseases. Says John L. Wehling, Nebraska extension plant pathologist: "Seed treatment to ward off seed-borne, seed-rotting and seedling-blight organisms costs pennies and results are good. Products recommended are Ceresan M, Panco-gen, Agrox, MEMA and Gytrete."

game birds are found, between April 1 and August 1. This is a necessary law because the time between these dates is the peak of the nesting season, say biologists at the Nebraska Game, Forestation and Parks Commission. Quail, pheasants and cottontail rabbits are ground nesters and often abandon nests when they are disturbed.
