

**WANT HARDER SHELLS?**

Egg producers who had many of their eggs graded down last summer because of thin, weak egg shells will be glad to know somebody is trying to help them. USDA scientists, working on improvement of shell quality at the Beltsville station, say a hen's ability to lay eggs with good shells is inherited. Here's how they determine shell quality: An

egg with a thin, porous shell dries out faster than one with a thick, hard shell, so they check air-cell size after eggs have been incubated 2 weeks. The thin-shelled eggs are removed and the others allowed to hatch. Hatcherymen, following the lead of this research, could produce quick improvement.

**Blair Batters Blue Devils on 33-6 Rampage**

Scoring at least once in each quarter, Blair romped over the Plattsmouth Blue Devils Wednesday night, 33 - 6 gaining Blair the runner-up spot in the Ak - Sar - Ben conference and pushing the Devils well into the cellar spot.

Grover Cundall scored Plattsmouth's only touchdown, which came in the fourth quarter. Blair led off with an 82 - yard drive in the first quarter, Bill Smith plunging over from the two-yard line. A pass from Jerry McCoy to Charlie Erickson clicked in the second quarter for another score. McCoy intercepted a pass in the third period and ran 52 yards for paydirt, and ran another in the fourth. Larry Moore got Blair's final TD.

The Devils will have an extra long wait until their next and final game, which will be at Bellevue Nov. 5. The game with Blair had been set for this Friday but was moved up at the request of the home team.

**Will Increase Prices For Testing Of Soil**

Farmers planning on submitting soil samples to the state soil testing service should do so before Nov. 1 as the present fee of \$1 per sample will be increased to \$1.50 on this date. All samples submitted before Nov. 1 will still be tested for the present fee of \$1, says Delno Knudsen, extension assistant agronomist at the University of Nebraska.

Lime tests will be made first and promptly mailed to the farmer's county agricultural agent. The complete soil test along with a letter of recommendation will be sent out later. The complete results should be received by the farmer within three to four weeks. Soil boxes and information sheets are available at each county agent's office.

Mrs. Les Wunderlich has returned from a short visit at Des Moines, Iowa with friends.

**Two-Tone Styling Adds Sparkle to Sport Coupe**

On display today at Cass County Motor Company is the completely new 1955 Chevrolet, as shown in the Bel Air sport coupe pictured here. Among the features are the broad, low grille and hood lines, appreciably increased vision through the new sweep-sight windshield, and the many special two-tone color stylings. The showing here will be 8 a. m. to 9 p. m.

**Peru 'B' Team Gains 9-0 Victory Over Local V. F. W.**

Peru State Teachers College's "B" team kept a 2-0 lead over the V.F.W. team here Wednesday night throughout almost the entire game, and finally pushed over for a touchdown with four minutes left in the game. Final score was 9-0.

Peru's two-point safety came on the second series of downs in the first quarter. Plattsmouth had held Peru deep in Peru territory after the kick-off, and Peru's punt on the eight-yard line. On a pitch-out from Halth, Todd was hit and driven back behind the goal line.

The rest of the game was played all over the field, Plattsmouth holding the invaders for three goal-line stands; and the local squad getting inside the enemy's 10-yard line twice.

The only touchdown came when Hart took a pitchout from Samuelson and went four yards around the left end. Ludwig kicked the extra point.

The vet's team members made several crowd-thrilling plays, and defensive and offensive teams both turned in an outstanding evening's work. Bob Norton intercepted a pass on his own two-yard line and shook free to get to Peru's 22. Another pass was intercepted by Johnson, who ran from his own five to midfield. The longest gain of the night was on a Plattsmouth pass play, Halth to Rieki, who went from his own 30 to Peru's 11.

Much of Plattsmouth trouble was on blocked punts, Peru knocking down three of them. The colorful evening included the half-time presentation by the V. F. W. of a citizenship award to Peru coach Al Wheeler. The veteran coach was cited for the outstanding influence he has shown on his young athletes during the years he has been at Peru.

Don Cotner played "To the Colors" at the beginning of the game, while the flag was being raised.

Officials for the game, all Peru seniors, were Eckman, Nance, and Allen. After the game both teams were served a meal at the V. F. W. club rooms, the meal prepared and served by the Auxiliary.

Daie Bowman, speaking for the V. F. W., today expressed his appreciation to T. I. Friest and other school officials for their cooperation in letting the teams use the athletic field. Proceeds of the game will go for a scholarship fund.

**Eagles Team Honored at Trophy Fete**

The Eagles softball team was honored at a banquet in the Eagles lodge last Friday, Wayne Rieke being awarded the trophy as most valuable player.

Jack O'Donnell was main speaker of the evening, telling of the appreciation of the Eagles for the sportsmanship and good conduct shown by players both on and off the field.

Sterling Cole, past Eagles president, presented the trophy. Bob Gall gave a short talk on sportsmanship and introduced the players. Doran Bowman was master of ceremonies.

Among team members honored were Bob Gall, captain, coach and the catcher Wayne Rieke and Gus Hopkins, pitchers; Jesse Jorgensen, first baseman; Bob Parrott, second baseman; Rite Wilson, shortstop; Carl Sell, third baseman; Dale Reckard, right fielder; Bob Richter, center fielder; Melvin Wilson and Rich Wolferth, left fielders; Don Beins, utility infielder; George Born, outfielder; and Ross Abel, extra man. Bob Kretz played with the team while on leave, but wasn't present at the banquet.

**Expect Better Quail Season Than Pheasant**

Nebraska hunters will fare better with the opening of the quail season this Saturday, than they have during the past pheasant season. The quail are very plentiful and good shooting should be the general rule. The long season, Oct. 30-Nov. 25 should extend into the end of the harvest season and the predominately heavy cover should become less of a problem as the season progresses. Hunting with dogs will be almost mandatory the early part of the season, but this is usually the case with quail.

Hunter success on pheasants has been light, as was expected. A low pheasant population is part of the reason for the low harvest of the ring-necks. Probably the small amount of harvested grain, both sorghum and corn, has contributed as great a share to the low bags.

Hunters gunning for quail this coming Saturday should keep in mind the daily hunting hours for quail are from one-half hour before sunrise to one hour after sunset. According to Game Commission technicians this gives the birds time to covey up for the night, before the sun goes down.

The importance of asking permission of the landowner cannot be stressed too much, according to game commission officials. Once again the hunters can be commended but there are always a few that cause local resentment against all hunters.

The quail season is open in the following counties: Adams, Buffalo, Butler, Cass, Clay, Dawson, Douglas, Fillmore, Franklin, Frontier, Furnas, Gage, Gosper, Hall, Hamilton, Harlan, Hayes, Hitchcock, Howard, Jefferson, Johnson, Kearney, Lancaster, Lincoln, Merrick, Nance, Nemaha, Nuckolls, Otoe, Pawnee, Phelps, Polk, Red Willow, Richardson, Saline, Sarpy, Saunders, Seward, Thayer, Webster and York counties and that portion of the following counties located south of U. S. Highway No. 30: Colfax, Dodge, Platte, and Washington, except for federal and state sanctuaries and refuges in these areas. (All other counties are closed.) Bag limit six, possession limit six.

Listed here are hours of sunrise and sunset, with hunters reminded that daily hunting hours

**TO THE VOTERS of CASS COUNTY**

In summing up my campaign for re-election I wish at this time to discuss some of the campaign issues and statements:

- Two months ago I sent each of you a copy of my record and platform while serving as your sheriff. To date there has been no public challenge of this published record, nor has there been any public criticism of our activities.
- My platform pledges and promises are my own and I stand back of them and my record one hundred Percent.
- Economically, I feel we have done especially well with your entrusted tax dollars. In view of the fact that we installed an up to date office to meet your needs, we still were able to operate on much less money than adjoining counties of equal size. Also solely thru our efforts we have returned each dollar spent four - fold.
- Thru your co-operation and our efforts we have made Cass County a more safe and decent place to live and raise our families. We only have to read our daily papers to know how fortunate we are in this regard.
- I feel that there is no substitute for experience and with 15 years of law enforcement experience and service back of me I feel that I am capable to continue serving you and your family in this world of today.

Above all, my fellow voters, you know, and my record reflects that we have always stood for good, clean honest, and efficient government. I have not made any questionable promises or charges, or attempted to mislead you by use of rumors or insinuations. Persons who resort to such tactics or carry on an evasive campaign do so for one of the following two reasons:

- An attempt to confuse you the voters of the main issues and to distract your attention.
- An attempt to cover up their lack of qualifications and inability to offer a program or a more progressive program than the one presently in effect.

In closing, I wish to call to your attention that your Sheriff is one of your most important insurance policies. His ability to deliver and perform can be judged solely on his education, experience, and record in law enforcement work.
