Mrs. Lester L. Edwards, president of the club was in the receiving line. Mrs. Edwards is the former Patricia Hadraba, daughter of Mr. and Mrs. John Hadraba of this city.

Buying A Christmas Tie - Women Only

Tie manufacturers, buyers and salesmen say only one woman out of four knows how to buy ties men like — yet they buy 60 per cent of the neckties sold every year.

Here are some tips on how to buy that Christmas tie, keep in mind that most men like conservative neckwear. Buy colors that go with or contrast well with his suits. Avoid such patterns as flower prints, outdoor scenes, fried-egg patterns, splashed effects. Try such favorites as regimental stripes or neat small designs regularly spaced. If pattern problems baffle you, solve them by getting solid colors — even if they don't seem exciting to buy, they're favorites with many men.

BIRTHS

Mr. and Mrs. Howard Clark are the parents of a son, weight seven pounds and fourteen ounces, born November 28, 1954, at St. Mary's hospital in Nebraska City, Nebr.

Sgt. and Mrs. Bill Kellison are the parents of a son, weight seven pounds, born December 5, 1954, at Victorville, Calif. Grandparents are Mr. and Mrs. Ed Kellison of this city and Mr. and Mrs. Calvin Heirs of Charleston, South Carolina.

Nehavka

The Maple Grove extension club Christmas party will be held at the home of Mrs. Henning Johnson on Friday, December 10 at 12 o'clock noon. There will be a 29c gift exchange and each member is asked to bring her own table service.

Extension Notes

Several reports indicate that soybeans were stored at higher than normal moisture content this fall. Farmers who have soybeans in storage are cautioned not to guess at moisture level but to test them to be safe. A general recommendation for safe storage is 12 percent moisture. Storing beans with over 13 percent moisture is risky, so it is best to dry or sell above this level.

Ed Howard was elected as chairman for the 1955 year to direct activities of the Cass county Productive Credit Association cooperators. The reorganization meeting was last Thursday evening at the agricultural auditorium in Weeping Water. Gilbert Farnoff was elected as vice-chairman. Three additional executive committee members will be chosen by the chairman at a later date.

George Jacobs, retiring chairman, presided at the reorganization meeting. Highlights of the meeting were an education film on the rumen of the cow, a panel of local feeders on livestock production, use of fertilizers, and conservation work, a report by H. L. Gayer, secretary-treasurer of the South Omaha P. C. A.

Guest At C. C. A. Meeting
Clarence Schmadeke, Cass county extension agent, was guest of the Consumers Cooperative association at their annual meeting in Kansas City, Nov. 30 and Dec. 1. One extension agent from each of the nine states where C.C.A. does business were invited.

The cooperative when organized in 1922 had a membership of 22 local coops. in the nine state area. Today there are 1682 member associations. One of the biggest projects the coop has achieved is the promotion of the 18 million dollar nitrogen fertilizer plant at Lawrence, Kans., which is now in production.

The two day meeting was enlightening and a wonderful demonstration of cooperatives at work.

Busy Kitchen May Be Dangerous Place

The fragrant and enveloping warmth of a busy kitchen on a cold winter day is a comforting thing. But a busy kitchen sometimes is a hazardous one, warns Miss Helen Becker, extension rural health specialist at the College of Agriculture.

Preparing meals for a hungry household or fixing dinner for a houseful of guests is always a busy task for mother. And that's when kitchen safety is most important. A sliced finger, a badly scalded hand or a fall can send you from the kitchen to the hospital when you're right in the middle of "everything."

Avoiding accidents in the kitchen is primarily a matter of maintaining a safety-conscious attitude and refraining from extreme hurry. So, take time to be careful.

Take time to turn handles of cooking utensils to the back of the stove.

Keep knives and other sharp instruments out of reach of children.

Use a safe step ladder to reach high shelves and other difficult storage places.

All electric appliances near the sink should be grounded. Organize small kitchen equipment and make sure electric cords, switches and plugs are in good condition.

The National Safety Council recommends investing a little time and money in safety. The expense will avoid the higher costs of hospital bills.

Total income of American individuals and families in this country in September was at the annual rate of \$287,500,000,000, within one per cent of the all-time high of \$288,000,000,000 in July, 1953.
