COTTON QUOTA
 Cotton farmers joined wheat producers in accepting the tightest production controls permitted under Federal farm law. These controls are designed to hold down production next year so that surplus supplies may be reduced. The Government now has about \$2,698,000,000 invested in surplus wheat stocks and \$1,230,000,000 in surplus cotton acquired under price control operations. Voting in a 20-state referendum recently, cotton producers were recorded as 313,061 to 27,135 in favor of marketing quotas on their 1955 crop.
HOME MORTGAGES
 Although Government officials are keeping a close watch on the booming stock market, they are reported to be a great deal more concerned over the increase in the number of home mortgages since 1951. About \$70,000,000,000 in home mort-

gages are outstanding. This is a record level, the volume having risen 54 per cent since the beginning of 1951. Homeowners owned only \$18,500,000,000 on their dwellings at the beginning of 1945.
