It Happened In NEBRASKA---

First "freight pilots" of the prairies were these picturesque mule-skimmers and bull-whackers whose whips could be heard "popping" two miles away. These rugged, well-armed men earned \$70 a month for handling oxen—\$10 more for mules!

In recent years, Nebraska taverns have earned a "bonus," too. Our taverns have gained the whole-hearted respect of the general public for conducting the tavern business in a wholesome, well-regulated manner—approved by all!

Here's why MORE PEOPLE ARE BUYING PONTIACs than ever before!

You can buy a big, powerful Pontiac for less than many models of the lowest-priced cars and much less than stripped economy models of higher-priced makes!

Compare this price!
\$2195.00

Biggest car at this price (122" wheelbase)
Most powerful car at this price (180 horsepower) • Only car at any price with distinctive Vogue Two-Tone Styling and the riding and driving ease of the torsion-free, Shock-Proof Chassis.

860 2-door 6-passenger Sedan illustrated. State and local taxes, if any, extra, as are white sidewalls and two-tone color. Price may vary in surrounding communities due to freight differential.

You don't have to look far to find the reason for the tremendous surge to Pontiac. No further than the fact that only Pontiac produces cars that compete with the costliest in size, smartness and power, yet carry a price tag that is well under many in the lowest-price field.

That's what brings people in to see and drive a Pontiac—a value story they simply can't afford to overlook. And once they do—once they get a close-up of America's most distinctive styling... once they sample the superlative roominess and comfort of Pontiac's luxury interiors... once they try the pulse-racing thrills of exclusive Strato-Streak V-8 performance—they lose interest in every car but this.

Come in and get the rest of the story. See, drive and price this high-powered future-fashioned beauty. You'll find that if you can afford any new car you can easily afford a Pontiac.
