**AERIAL HAZARD**—The hazard on the fourth hole at a recently completed municipal golf course near Cincinnati, Ohio, is not to the game but to aerial navigation. Mrs. C. M. Erickson scans the sky over a Lunken Airport runway in compliance with sign at the tee, to be sure she doesn't sink a high one in some pilot's windshield as he's coming in for a landing.

## Wilson 6-Horse Hitch Will Be Hinky-Dinky Visitor Saturday

A massive team of championship Clydesdale horses will appear from 3 to 5 p.m. Saturday in the parking lot of the Hinky-Dinky supermarket at Plattsmouth.

The horses, which are sponsored by the Wilson and Company, will be hitched to a show wagon. Inside the Hinky-Dinky store Wilson men will give away balloons and cardboard cut-out models of the hitch.

Wilson's Six-Horse Hitch, which has just won the national championship for the 20th time in 35 years, pulls a wagon which weighs 4,500 pounds when empty.

It is one of the actual wagons used to deliver meat from the Chicago Stockyards 60 years ago. At that time each of these wagons and hitches often carried as much as 12,000 pounds of meat products into the Loop area.

The original wood has been carefully preserved and repaired each year. The Wilson Hitch has traveled across the country many times since its inception in 1917 and also has been exhibited in England, Wales, Scotland and Cuba.

The Clydesdale are larger, more expensive and rarer than ordinary breeds of horses, and the cost of their upkeep might be compared with that of a racing stable.

An ordinary horse is about 15 hands high, a hand being four inches, and the horse being measured from his withers (top of his shoulders) to the ground. The Clydesdale in the Wilson Hitch, on the other hand, measures as high as 18 hands or more.

The lead horses are the smallest, standing about 17 hands, one inch. The swing or middle pair in the hitch reach 17 hands three inches, and the largest are the wheel horses (nearest the wagon) which measure more than 18 hands high.

Some idea of the size of these massive Clydesdales is gained from the fact that it takes three and a half pounds of steel for each shoe.

The expensive show harness for each horse weighs more than 110 pounds and is made from top-grain leather trimmed with solid brass. Various parts of the harness are made in this country and other sections are imported.

## Cards Tryout Camp Set Omaha Aug. 22

A St. Louis Cardinal baseball tryout camp will be held at Municipal Stadium in Omaha, Nebraska on Monday, Tuesday and Wednesday, August 22, 23 and 24. It was announced today. Prominent Cardinal scouts will be on hand to conduct the workouts which may result in a baseball career for some of the youthful hopefuls on hand. Workouts, open to all players between 17 and 23, start each morning at 10 o'clock.

Players attending the trial sessions need bring only a glove, baseball shoes and a uniform, if he has one. All other equipment will be furnished by the St. Louis National League team. Tryout camps have long been a source of a great amount of player talent that is contained in the Cardinal's farm system, largest in the world and hence the one with the most opportunities.

For example, three of the 25

players now on the Cardinals' major league roster were discovered in tryout camps. Pitcher Harvey Haddix, Rookie Third Baseman Ken Boyer and the incomparable second baseman, Red Schoendienst.

Cardinal Manager Harry Walker, pointing out the opportunities for young players in tryout camps, said: "Don't be discouraged if you're not as good as the major league players right now. Come out to the tryout camp, anyway. Remember that great stars like Haddix and Schoendienst and a fine rookie like Boyer were once raw and green."

"They didn't always pitch or hit or field as good as now. They had to learn how, and when they did, the Cardinal organization was equipped to give them their big chance in the major leagues."

**U. S. INCOME**  
For the first time in the history of the country, estimated annual income figures not only had reached but also had topped \$300,000,000,000, according to the Office of Business Economics of the U. S. Department of Commerce. The May Figures, recently released, were \$2,000,000,000 ahead of the annual rate reported for April, the former record month, and \$14,000,000,000 higher than those for May, 1954.

**THE A. E. C.**  
President Eisenhower signed with "great reluctance" a bill giving the Atomic Energy Commission \$1,380,847,000. He warned that the cut of \$140,404,000 from the measure would jeopardize work on atomic weapons and peaceful uses of atomic energy.

**PERSONAL INCOME**  
The Department of Commerce reports that, for the first five months of 1955, total personal income in the United States was at an annual rate of \$296,000,000,000, a gain of \$10,000,000,000 over the corresponding period of 1954.

**PEAS BLOCK TRAFFIC**  
MANKATO, MINN. — Traffic was halted for some time on U. S. highway 169 when eight tons of shelled peas spilled onto the highway, making the road surface so slick and heavy that traffic was impossible. The peas, being transported in the large tanks atop the flatbed of a truck, were dumped on the road when the truck's front wheels locked on a turn.
