## FARM PRICES

Farm prices dropped two per cent during the month ended mid-July according to the Agriculture Department. This decline largely reflected lower prices for hogs, potatoes, apples, wheat and watermelons. Prices for a few commodities went up, including milk, tomatoes, grapefruit, cotton, lettuce and eggs. The Department said the general level of prices received by farmers averaged 84 per cent of parity, compared with 86 per cent in mid-June, 88 per cent a year ago and a record high of 123 per cent in October, 1946.
