### Blue Devils Go Against Tough Team of Ak-Sar-Ben on Friday

Plattsmouth's Blue Devils, who have yet to step into the football win column, will take on what is judged the toughest team in the Ak-Sar-Ben conference Friday night.

They travel to Omaha Westside to go against a fast coming team which has scored three decisive victories. They toppled Bellevue 18-0, Blair 31 to 6 and last weekend ran over Ralston 24 to 0.

Plattsmouth Assistant Coach John Adkins, who scouted a half of the Ralston game last Friday says the Westside team is fast and strong and, though not as heavy as Ashland, who beat

Plattsmouth last Friday 6-0, they are quicker.

They are especially strong around either end.

The Devils will go into the game crippled. Denny Hinz, starting fullback, is nursing a sore ankle which was re-injured in the Ashland game.

The Devils lost an end and a guard in a traffic accident near Murray Monday night. Darrel Yenney was on crutches and Dennis Barbee had been hospitalized with an injured head.

Neither will see service Friday.

Joe Grauf, who has had sore knees and an injured shoulder, will also be on the injured list. Loren Haase has nearly recovered from a shoulder injury picked up in the Ashland game.

Some of Westside's punch comes from Pat Fischer, one of a line of football players familiar to Nebraska. Two of his brothers, Ken and Cletus have played on University of Nebraska teams and another, Rex Fischer plays there now. The two of the one-two punch is Chambers a hard-running halfback.

Devils Coach Burdett Hansen had more bad news to report this morning. Larry Cundall, a defensive left end, went out with a sprained ankle following a scrimmage this week. A freshman may start at the post Friday night. It may be Ken Pritchard or Richard Kellison, both freshmen, or Ken Aylor, a junior.

### John Dillinger Personal Auto To Be Displayed

The personal car of John Dillinger, gangland kingpin of the prohibition era, will be on display at Plattsmouth, Tuesday, Oct. 4. The Plattsmouth police department, sponsors of the car, will make a modest charge to view the bullet-proof car.

Dillinger's 1931 1931 Cadillac was considered the most formidable machine for crime in its day. The car weighs 9,144 pounds—over twice the weight of ordinary cars—and was equipped with several anti-pursuit mechanisms.

The V-type engine had smoke and tear gas generators, and a device beneath the car sprayed tacks onto the road to puncture tires of would-be apprehenders.

The car was equipped with a two-wave radio to pick up police calls.

Designed for speeds in excess of 10 miles an hour, the car had bullet-proof glass with ports through which guns could be fired.

Dillinger and his mobsters reportedly used the car in a total of 39 holdups and 13 murders. The vehicle was finally abandoned near East St. Louis when it ran out of gas during a chase by police.

Dillinger eventually was slain by police (July 19, 1934) outside a Chicago theatre on a tip from the gangster's ex-girl friend, later to become known as "The Lady in Red."

Since the Voios region of Greece was hit by a devastating earthquake in late April, the American Junior Red Cross has shipped 15,000 gift boxes and 25 cases of school supplies to children in that area.
