## JUST HOW BIG IS NEBRASKA'S TRUCKING INDUSTRY?

Many Nebraskans do not realize just how big the trucking industry is. As a matter of fact, most do not know it ranks near the top in Nebraska in money invested, number of people on the payroll, and in dollars spent. Those facts apply to every community in the State, as well as the State as a whole.

How many of you know that there are 81 thousand farm trucks in Nebraska?

How many of you realize that motor trucks haul 3 out of 4 tons of freight in the State?

Do you know that the trucking industry gives employment to 70 thousand persons in Nebraska?

And have you ever realized that the industry's payroll is \$269 million in the State?

Trucking in Nebraska is big business indeed—and important business. It is one business that is as important to rural people of Cass County as it is to the people of its towns and cities. Trucking is big business, business that helps support your community. Plattsmouth Transfer is proud to be a part of it.
