Bible Comment: Church Grew From Experience Of New Life

THE Christian Church did not arise out of plans of some promotional organizer. There was no advance prospectus or blueprint of a proposed organization. The Church definitely grew out of an experience. It was not a matter of organization awaiting or developing life; it was life leading to organization.

Although Jesus did not formally organize the Church, there was more organization associated with his ministry than is commonly supposed. He gathered about Him the apostles, to whom were committed special privileges and responsibilities, and with whom He communed concerning the deep things of the Kingdom, so that he developed an inner band of disciples—a sort of Christian cabinet—to carry on His work. Also, He organized the "seventy" and sent through the villages teaching and preaching, two by two.

The Church, as I have said, had its origin in the experience of the new life. It began as these experiences found expression in the remarkable events on the Day of Pentecost. Here, as the disciples were gathered together in one place, there came a strange outpouring of spiritual power. Peter, who formerly had denied his Lord, preached with great boldness and courage about the reality of the Christian way, and brought home to the hearts and consciences of his hearers the realization of their sins. The result was that many were brought into the Christian way.

In his letter to the Ephesians, Paul sets before us a noble ideal, that of the Church as a body incorporating the spirit of Christ.

The Church still waits for the fulfillment of that ideal, and the world itself will never find peace until the unity in love becomes the dominant mark of human society.

THE U.S.S. SARATOGA
The Navy has commissioned its mightiest ship yet - the aircraft carrier U.S.S. Saratoga. It's the biggest, fastest and most powerful ocean fighting vessel afloat. The Saratoga is the second ship to be launched of the class of the supercarrier U.S.S. Forrestal, but she embodies advances over her sister ship. About five city blocks long, and about a block wide, she has a flight deck more than four acres in size. The entire population of a city of 40,000 could stand on her decks. She'll carry a crew of about 3,800 officers and men.

COW WINS BOUT
ALBUQUERQUE, N. M. - The next time Policeman J. B. Davis has to run a cow off a road, he won't use his motorcycle. The cow charged and trampled the cycle, damaging a fender, headlight and windshield. An unidentified cowboy later roped the cow and left it tied to a tree until the owner could recover it.

AUTO PRODUCTION
Harlow H. Curtrice, General Motors president, whose predictions in former years have usually been borne out, has recently lowered his sights on 1956 auto production. In January, he predicted the industry would turn out 6,500,000 cars this year, compared with the almost 7,500,000 produced last year. Now he has pared his prediction by eleven per cent to 5,750,000 cars. If this proves correct, production this year will be 32 per cent lower than last year.
