## Farm Bureau Meets At Wiles Home

The home of Mr. and Mrs. Glenn and Clark Wiles was the scene of the March 8 Mynard Farm Bureau unit meeting.

State Unit affairs person, Richard O. Cole, reported on the events of the Legislature for the past month. LB 575 and LB 576 are bills likely to cause farmers and ranchers more money and put them under the control of the State Railway Commission if they become law. If passed, these bills would change the farm truck registration fee basis from factory rated carrying capacity to net load hauled. While it would not affect the "F" classification or the license fee rate, the bill would have the effect of increasing license fees for individual farmers, because in most cases the factory rated carrying capacity is considerably less than the net load which a truck can haul.

LB 274, if passed would define a farm tractor as a motor vehicle. This means that persons operating farm tractors, under Nebraska Law, would be compelled to be licensed and that youths under 16 years of age could not legally drive the tractor; all tractors would need to be licensed and insured; and there would be no gas tax refund.

The program consisted of slides and remarks by Robert Cole about his trip to the National Farm Bureau Convention at Miami, Florida, in December. Mr. and Mrs. Myron Wiles also shared slides of their recent trip to the South and Nassau in the Bahamas.

Refreshments were served by the hostesses at the close of the program.

The April 12 meeting will be held at the home of Mr. and Mrs. Sam Gilmour.
