from Romans (15:4): "For whatsoever things were written aforetime were written for our learning, that we through patience and comfort of the scriptures might have hope."

Correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (547:23-25, 31-32): "The Scriptures are very sacred. Our aim must be to have them understood spiritually, for only by this understanding can truth be gained — It is this spiritual perception of Scripture, which lifts humanity out of disease and death and inspires faith."

DUPONT—G. M. DECISION
The effects of the Supreme Court ruling that du Pont's ownership of the largest single block of General Motors stock violated the 1914 Clayton Act has caused other large corporations, owning blocks of stock or controlling interests in the stocks of others to consider their position as to the ruling. General Motors is the third largest corporation

A Message from the President of the Missouri Pacific Railroad

RUSSELL L. DEARMONT

Our Obligation ... to You Your Obligation ... to Us

The MISSOURI PACIFIC RAILROAD, although privately owned and financed, is a publicly regulated common carrier. It recognizes that it must at all times so conduct its affairs as to discharge these four basic obligations:

- 1. TO OUR PATRONS:** Our first responsibility is to provide the finest possible transportation service at a cost low enough to make it useful and attractive to our patrons but high enough to insure adequate earnings to enable us to discharge our other obligations.
- 2. TO OUR EMPLOYEES:** The Missouri Pacific is manned by a dedicated army of men and women. All of them share a determination to uphold our reputation as "A Service Institution". We believe that in order to attract and retain people who will uphold the finest standards in railroading, workers must not only be adequately paid and provided with good working conditions, but their merits must be recognized and an opportunity for advancement provided.
- 3. TO OUR STOCKHOLDERS:** We firmly believe that the transportation needs of the nation can best be met by private enterprise. This entails, however, the obligation to give to those whose money has made the enterprise possible a fair return on their investment—a profit, if you please.
- 4. TO THE COMMUNITIES WE SERVE:** Our prosperity is closely geared to that of the communities in which we live and work. To aid in the economic growth of Missouri Pacific territory we maintain an Industrial Development Department which during the postwar period was instrumental in locating on our lines almost 4,000 new industries, with an estimated capital investment of more than \$1½ billion.

Such are our obligations, and we intend to discharge them to the very best of our ability.

We hope, however, that you share our belief that the public has some obligation to us as an essential, publicly regulated industry . . . the obligation to insist that "horse-and-buggy-day" government regulations imposed on the railroads seventy years ago be modernized. In brief, your American railroads, in order to most effectively discharge all of their obligations, must be allowed to compete on equal terms with other forms of transportation. You, the public, can help us in this, and by so doing will best serve your own and your community's interests.

Thus is our fortune linked with yours. Together let us build a bigger and better West-Southwest Empire.

When asked why they COOK ELECTRICALLY

women say:

"It's Cool!"

"Electric heat goes into the food—not the kitchen. Direct contact between the pan and heating element provides cooler, faster, thriftier cooking . . . cleaner pots and pans, too. Electric ovens require no vents, so are insulated on all six sides—all the heat stays in the oven. Once the oven temperature is up, it automatically shuts off for fully three-fourths of the time . . . that saves electricity!"

If you cook electrically, go to the electric appliance dealer of your choice for a FREE GIFT
