Young Drivers Must Renew Licenses Yearly

A new state law calling for yearly renewal of probationary driver's licenses applies to such licenses issued before the law was enacted by the attorney general at ruled Tuesday.

LB 385, which passed the 1957 legislature carrying the emergency clause and became effective May 27, provides that persons between the ages of 16 and 20 may have only probationary licenses that expire each September 1st.

A driver's license is a privilege, not a right, according to Assistant Attorney General Ralph Nelson, who said persons who obtained such licenses before enactment of new law must renew their licenses on September 1st.

"The repeal or amendment of a statute cannot have the effect of destroying vested rights acquired under a former law," he said, "but it can destroy privileges acquired under former laws."

Broken Water Pipe Causes House Damage

Sunday afternoon the residence property owned by Mr. and Mrs. Louis Naeve, at Seventh and Avenue A, suffered several hundred dollars damage as the result of the breaking of a gasket in the water line that resulted in flooding a large portion of the house.

The family were not at home at the time of the accident, the break occurring in a vacant apartment on the second floor. The flooding was noticed by other residents in the apartment house and flow of the water was finally stopped.

When Mr. and Mrs. Naeve returned home they were started to see furniture and rugs out in the yard and the interior a small inland sea.

The break occurred in the apartment above the large living room, water seeping down into the room, damaging the large 9x18 yard rug as well as several smaller throw rugs. The water covered the floor for several inches and seeped into the basement where a large number of articles were stored, all of which are more or less water damaged.

The total loss cannot be definitely fixed as it is possible the water soaked plastering of the living room may fall.
