Detasselling of Pool's
Detasselling of Pool's Nebraska hybrid seed corn will be completed in another week. This work must be done just at the right time of the tasselling of the corn, so it is necessary to have quite a crew of workers in the fields at one time.

Rains near Waverly on irrigated contract fields on the Elmer Schlapphoff farm meant large crews have to walk in muddy fields some days in order to complete the work.

River Fishing Best
Survey compiled by the Nebraska State Game commission from county-by-county reports, indicate that fishing in the rivers of the state, particularly in the Platte, Elkhorn, and Missouri, was the best bet for the fishermen of the state.

The water levels in the rivers are now practically normal, helping the take of catfish in the streams. Anglers using crawdads scored repeatedly as did rod and reelers using entrails and liver.
