Only a flameless electric water heater can be installed any where in your home . . . at the point of greatest hot water use for convenience and economy.

**NOW!**

You Can Enjoy Greater Advantages By Heating Water Electrically

NOTICE TO CUSTOMERS OF CONSUMERS PUBLIC POWER DISTRICT OPERATING ELECTRIC WATER HEATERS

Effective October 1, 1957, a change is being made in the policy and rate applicable to electric water heaters served by the District.

In order to give our customers better water heating service, the restrictions on charging time and heating element capacity are being relaxed.

The slight increase in rate under the new policy is substantially offset by an increase in the number of kilowatt hours in the water heating block in our combination rates.

May we suggest that you inquire as to new policy and rates for water heater service, at our nearest office to be sure that you will receive the maximum benefits from your electric water heater.
