Where is the peddler when you want your money back?

We hear that fast-talking peddlers are going through the neighborhood, selling vitamin preparations door-to-door. If you should buy and then be dissatisfied what could you do about it? Not a thing—peddlers change towns the way we change shoes. So it makes sense to do business with an established firm, here today and here tomorrow. Besides, a pharmacy is the only proper place to get vitamin preparations, many of which lose strength if handled or stored improperly.
