## Rotary Club Here Names Officers

L. A. Caldwell, Father Max Koss, Gene Sochor, John Schreiner, Carl Schneider and Al Huebner Tuesday were elected to offices in the Plattsmouth Rotary Club and will take office at the change of terms July 1.

Caldwell actually succeeds to the presidency since he is now vice president.

Fr. Koss was elected vice president, Sochor, re-elected secretary, Schreiner re-elected treasurer (without opposition) and Schneider and Huebner named to the board of directors.

For Tuesday's program, Rotarian R. R. Furse talked and showed color slides about Tombstone, Ariz., which he said was quite different from the way it is shown in movies and on TV.

Furse told what life was really like in the famous "wild west" town as seen through the files of the Tombstone Epitaph, newspaper of the town for 78 years since the silver mining boom.

Some of the legends attached to the town and its legendary heroes, like the Earps, Billy the Kid and others, are greatly exaggerated, he said. The romantic death of Billy the Kid, for instance, wasn't romantic at all according to the record in the Epitaph. "The Kid" was shot down and killed as he lay in wait with a rifle behind a barrel, himself planning to ambush one of the Earps, according to the newspaper.

High School Rotarians of the month at the meeting were Tom Sullivan, senior, and Chester Bowman, junior.

## Wet Snow Caused Some Worry Here

Wednesday's wet snow caused considerable worry here for the Consumers Public Power and Lincoln Telephone & Telegraph managers before a change in the weather ended the threat of wire trouble.

"This was one time the temperature worked in our favor," a power company man said. He said the greatest danger was that tree limbs would become weighted, break and damage lines.

Otherwise, the snow was good for farm land but bad for farm roads. Many roads were next to impassable but many of them were being driven anyway.

## 60-Gallon Soap Kettle, 6 Slaves . . .

Since this is the auction season in these parts, it may be interesting to compare present-day items with what was offered at a farm auction more than 100 years ago.

That the auction was to be at Versailles, Kan., makes little difference. The sale bill for the sale March 1, 1849, was discovered by a reader of the Gravette, Ark. News Herald and offered that paper for reproduction. The Journal acknowledges the News Herald for the information, brought by Ed Miller, 701-4th, who returned recently from a visit with his daughter at Gravette.

The sale bill: Having sold my farm and am leaving for Oregon Territory by ox team, will offer for sale on March 1, 1849, all my personal property, to wit:

All ox teams, except two teams, Buck and Ben, and Tom and Jerry.

2 milch cows.  
1 gray mare and colt.  
2 ox carts.

10 gallon maple syrup.  
2 spinning wheels.  
30 pounds mutton tallow.

20 gallons apple brandy.  
1 40-gallon copper still.  
100 empty barrels.

## Participation Day' Set for April 9 Here

April 9 has been set as Participation day at the county courthouse here, James F. Begley, chairman of the American Legion committee in charge of the Boys and Girls County Government function, said today.

This will be the 9th annual edition of the program and high school students from Avoca, Elmwood, Weeping Water, Eagle, Nehawka, Plattsmouth, Murdock, Alvo and Loupville are expected to participate.

Each school will hold an election, naming officers for the following county posts—clerk commissioner, judge treasurer, register of deeds, assessor, sheriff, attorney, superintendent of schools, surveyor and clerk of district court.

One other office, welfare director, is appointive and will be filled by an appointment by the commissioner.

The function is part of the Legion's Americanism program, designed to help young people become familiar with the workings of government.

Each year, Participation Day is held the second Wednesday in April. Students elected to the various offices actually take part in simulated office functions under guidance of the real officers.

Begley himself will take part since he is county attorney.

## Farmers: Check That Ear Corn

As winter gives way to spring, farmers should keep a careful check on ear corn stored in cribs.

E. A. Olson, Extension agricultural engineer at the University of Nebraska, says farmers would be wise to check the grain at least once a week. He suggests using a probe to check the condition of grain in the center and lower portions of the crib or bin.

If the corn contains 17 or 18 per cent moisture or above, farmers should find some means of drying before warm weather arrives to avoid spoilage.
