21 Here Take Merit Scholar Examinations

Twenty-one students of the junior class of the Plattsmouth High School took the National Merit Scholarship Qualifying test Tuesday. Jessie Whalen, assistant principal said.

An estimated \$5 million in merit scholarships and other awards are at stake in the national competition, now beginning its fourth year. Some \$12 million in merit scholarships have been awarded in the first three years of the program.

Merit Scholarships are provided by some 80 corporations, foundations, professional societies and individuals, as well as by the National Merit Scholarship Corporation itself which conducts the competition.

The National Merit Scholarship Qualifying Test is a three-hour measure of educational growth and aptitude. Emphasis is on broad intellectual skills, and on understanding and ability to use what has been learned, rather than on sheer knowledge of facts.

A group of 10,000 students—composed of the highest scorers in each state—will advance to the Semifinals when the results are reported to all participating schools next fall.

Semi-finalists will then take a second examination. Those who repeat their high performance on the second examination will become finalists in the program and will indicate their choice of college and course of study. Further evaluation of their grades, citizenship and extracurricular achievements will follow and the winners will be announced in the spring of 1959.

The test results will be available at the beginning of the senior year, in time for use by seniors and their class advisors. The scores may also be used in many high schools to help students make decisions about college and the most appropriate courses to major in. Many students throughout the country who do not expect to win have registered for the test, in order to learn more about their individual strengths and weaknesses.

Dr. John M. Stalmaker, president of the National Merit Scholarship Corp., recently cautioned that there are many reasons why test results cannot be used to evaluate school performance. The distribution of the population throughout the state, the size of the school, the native intelligence of its top students, the percentage of students taking the test, the nature of the community where the school is located, the purpose of the school and many other factors having nothing to do with the total effectiveness of the school can influence its number of finalists.

The test results will, however, enable students as individuals, to compare their scores with other students across the nation.

The test was constructed by Science Research Associates of Chicago and will also be scored and reported by the testing agency.

Each Merit Scholarship carries a stipend based on the need of each individual winner, and is renewable annually without further competitive examination. The average stipend in past years has been \$650 per year. The minimum award in the 1958-59 program will be \$100 a year and a maximum will be \$1,500 a year.

The names of all program finalists will be sent to colleges and universities and other scholarship organizations throughout the country. In this way many non-winning finalists are helped in winning scholarships awarded directly by colleges and other organizations.

Sketch Of Life Of Frances Mae Hunt, Deceased

Frances Mae Hunt was born to John and Laura Amick, July 10, 1892, at Stockton, Kan.

In 1905 the family moved to a farm southeast of Weeping Water.

She attended Sunny Hill School and was graduated from the Weeping Water Academy in 1911. As a girl she became a Christian and a member of the Congregational Church of Weeping Water.

She was united in marriage June 1, 1916, to Frank Milton Hunt at Weeping Water. To this union was born two sons and a daughter, Marvin in 1918, Mervyn in 1920 and Laura Marie (Mrs. Merritt Pollard Jr.) in 1922. A third son died in infancy in 1925.

The family moved to the farm southeast of Weeping Water in 1925, where they resided until she and her husband moved into Weeping Water in 1932.

Mrs. Hunt passed away after a brief illness while visiting at Boise, Idaho, April 25, 1938, at the age of 45.

She was preceded in death by a sister, Grace, in 1900, mother in 1917, an infant son in 1925, father in 1930, brothers Cecil in 1944 and Earl in 1953.

Surviving are her husband; two sons, Marvin of Dayton and Mervyn of Boise, Idaho; one daughter, Laura Marie of Seymour; two step-daughters, Mable Armstrong of Lincoln and Nellie Kitchen of Roundup, Mont.; 12 grandchildren and 20 great-grandchildren; two sisters, Edith Truman, Minerva Coolman; a brother Louis W. Amick.

All those who knew her will remember her love for flowers, and the joy she got from sharing them and their beauty with her friends and neighbors.

Appeal on Dam Site Award Filed

An appeal from a \$3,700 condemnation award to James Eden for ground needed as part of a flood control dam site here has been filed on behalf of the city in District Court.

The city attorney had earlier filed notice of intention to appeal after authorization of that move was given by the City Council.

Eden's property is in West Plattsmouth where one of the first two dams proposed for this watershed will be located.
