NO "SCHOOL DAZE" for Healthy Children

Unsuspected minor ailments can handicap a child's learning—making him listless, rebellious and insecure. Don't send your children through such "School Daze". Good grades and work happiness depends so much on good eyesight, good hearing and good physical condition that you are well advised to take your youngsters to a Doctor and Dentist for pre-school examinations. Children who pass these "exams" find it much easier to pass their school exams.
