CAPITOL CORNER

Congressman

GLENN CUNNINGHAM

The Jamestown Colonists tried socialism and nearly starved. Now, after 350 years, we seem to be trying it again. For every conceivable human problem, the planners and subsidizers are stepping in with the thinking that a law is always the answer to any problem.

When former Illinois Governor Adlai Stevenson vetoed a bill designed to protect bird life by forbidding cats to roam about, he said:

"The problem of cat versus bird is old as time. If we attempt to resolve it by legislation, who knows but what we may be called upon to take sides in the age-old problem of dog versus cat."

"In my opinion, the State of Illinois already has enough to do without trying to control feline delinquency."

With Memorial Day and Flag Day approaching, you may be wondering whether the 48-star flag or 49-star flag should be displayed. The Army has announced that the 49-star flag will become official at 12:01 a.m. July 4.

U. S. population May 1, including servicemen overseas, is estimated at 176,213,000.

I have a limited supply of "Washingtons Farewell Address." It is one of the great state papers of American history. I would like to distribute them to persons who would like to read them or use them in school work. Please write me at Room 1523, New House Office Building, Washington 25, D. C. for a copy.

Each working day Uncle Sam writes a stack of checks 54 feet higher than the Washington Monument.

Traffic Safety Quiz

Are you one of those guys who says, "A couple of drinks don't bother my driving a bit?" Well, let's see just exactly how much you actually do know about drinking and driving.

1. Strong black coffee will offset most of the effects of alcohol. True or false?

2. Just two drinks may reduce your visual "sharpness" greatly. True or false?

3. People who take two or three drinks (social drinkers) and then drive a car are a bigger problem than out-and-out drunk drivers. True or false?

4. During the Christmas holidays, about one out of four drivers involved in a fatal auto accident has had something to drink. True or false?

5. About one out of five adult pedestrians killed has been drinking. True or false?

Answers:

1. False. Coffee or other stimulants, the National Safety Council says, will not offset the effects of alcohol. "Only time," it says, "can eliminate alcohol from the blood stream."

2. True. According to the American Medical Assn., two cocktails may reduce your visual acuity as much as if you were wearing dark glasses at night. "Imagine," the Council says, "trying to drive at night wearing dark glasses."

3. True. As a group, social drinkers can be a greater problem than obvious drunks," the Council says. Why? "There are more social drinkers and they're harder to detect. When a drunk gets behind the wheel of a car, he usually attracts attention because his actions are so pronounced others notice his impairment. The social drinker, however, usually is able to escape detection until an emergency gets him into trouble."

4. False. Not one out of four — closer to one out of two, according to the Council. This is almost twice as high as the annual average.

5. True. The exact percentage in recent years has been about 22. And during the Christmas, 1957, holiday period, a Council study shows, more pedestrians were killed in the first hour than in any other hour during the period.

"There are a lot of misconceptions concerning drinking and driving," the Council says. Smart drivers know you don't have to be drunk to be dangerous."
