WHAT'S NEW in MEDICINE?

The day by day advances being made by medicine in the development of new and highly effective drugs are nothing short of miraculous — and because of them, people are living longer and healthier lives... recovering from illness faster and at less expense. Whatever is new in prescribed medicine is added immediately to our supplies of prescription ingredients so that calls for the drugs can be filled without delay. We deem it an important part of our responsibility to physicians and their patients to know what's new in medicine—and to have it in stock.
