John Svoboda declined nomination as a candidate for the regular term.

Council To Study Question Further

The City Council decided Monday night to further study a question about minors being allowed in places where beer and liquor are sold.

The Council discussed at length a question posed a few weeks ago by the Plattsmouth Municipal Association before moving to take time for further investigation.

One-Side Parking On 4th Street, Avenue A to B

The City Council Monday night ordered a resolution drawn to create one-side parking on 4th Street from Avenue A to Avenue B, on recommendation of Police Chief Fred Tesch.

Tesch recommended parking on the west, or downhill side.

Councilman Al Huebner first suggested the measure to help relieve a traffic "bottleneck" and Tesch was asked to investigate.

An exception to the parking regulation would be during funerals when parking would be allowed on both sides of the street.

'4-H Is a Family Affair'

By Clarence Schmadeke
County Extension Agent
"4-H is a family affair" is the theme of National 4-H Club Week in Nebraska, March 5-12.

Therefore, every week of the year is 4-H week.

But in observance of one week, accent is put on 4-H, so a reminder can be made to the public of the aims, purposes and objectives of 4-H.

The 4-H clubs organized in Cass County to date will observe the week in many ways.

The 4-H Orioles club at Alvo will sponsor a community meeting on feeding livestock.

The Busy Homemakers club at Plattsmouth will have a Banquet, honoring their parents.

Other clubs will make window displays or hold club meetings at which time they will acknowledge National 4-H week.

Many of the 24 clubs of 1959, which have not organized for 1960 will do so during the early days in March. New clubs too will be organized.

A boys 4-H club will be organized in Avoca on March 12.

This brings up a point which town and city boys and girls should heed, 4-H offers many opportunities for them as well as for farm youngsters.

Projects which are very adaptable for city and town boys are Yard Beautification, Garden, Wood Working, Electrification, Forestry, Automotive Care, Photography, Wild Life Conservation and many others.

All the Home Economics 4-H projects are equally beneficial and practical for city girls as for farm girls.

Board OKs Road Plan, Adds 3 Projects

The Cass County Board of Commissioners Tuesday unanimously approved the entire program of road work for the next fiscal year as proposed and added three additional projects.

It also unanimously approved purchase of two new auto patrols (road graders), a new one-half ton pickup truck and a used rock trailer.

There'll be trade-ins on the patrols and truck. The rock trailer is a "new" piece of equipment with which the Commissioners hope to save money in rock grinding county roads.

Added to the overall work plan after a hearing on the program Monday were the following:

Rocking of a mile of east-west road a mile north of Murray between sections 11 and 14.

Rocking of three-quarters mile of road in Greenwood Precinct between sections 30 and 31.

And grading and rocking of one-half mile of road between section 1 and 6 in Mt. Pleasant Precinct.

unanimously to alter it because of an emergency in a given instance.

The Board agreed some time ago that all holdover 1959-60 fiscal year projects have to be completed before the new ones are undertaken. There are 23 projects still uncompleted for the current fiscal year which has until June 30 to run.

Clark said several projects are graded and ready for rocking as soon as weather permits. Some others will also be accomplished before the new fiscal year begins.

Statute required the Board to pass on the new program by March 1 (Tuesday).

A complete list of proposed projects appeared in The Journal Feb. 4.
