Wouldn't you like to know ahead of time what your heating account will be each month next winter?

Our Customer Budget Plan offers this convenience... levels out your winter fuel cost into equal monthly payments.

HERE'S HOW IT WORKS

An estimate will be made of the amount of gas you'll use next winter based on your past consumption experience. The amount is then divided into equal monthly payments.

With the Budget Plan you'll enjoy equal payments each month throughout the heating season—regardless of weather. You can plan for the amount just as you do other fixed expenses.

Call or stop at The Gas Company for complete information and Sign Up NOW for the Budget Plan.

The engine is Chevy's famous Thriftmaster 57!

Chevy hums through Chicago traffic to the tune of 21 miles to the gallon!

Working for Bumper and Auto of Illinois, Inc., ten 1960 Chevrolet pickups battle Chicago traffic day after day. Each truck averages about 2,000 miles a month in this wearing stop-and-start delivery service. Mr. Harry Haller, General Manager of S & H Truck Leasing, who leases the trucks to the bumper firm, reports: "We provide full maintenance on the trucks—gas, oil and everything else—so it pays us to know just where we stand on costs. And our records show that the '60 Chevies are giving us as much as 21 miles per gallon... with an average of better than 17 miles per gallon. Mister, these are our kind of trucks!" Truck owners have good things to say about all Chevy engines. And when they're not talking about Chevrolet performance and economy, they're telling you how great that new Torsion-Spring Ride is. How it soaks up road shock and vibration. Protects fragile loads. Lets you run at faster, safe speeds to get more work done in a day. Drive a torsion-spring Chevy soon. We'll rest our case on that one ride.

WORTH MORE BECAUSE THEY WORK MORE! CHEVROLET STURDI-BILT TRUCKS
