Mr. and Mrs. Peter Stander, Carol, Mary Ann, Charles and Steve and Bert Wells attended Barnum and Bailey's Circus at Ak-Sar-Ben field near Omaha, Sunday evening.

Earl Mansfield called on Wallace McClelland Saturday afternoon.

Widow Eligible For Husband's Social Security

Widows age 62 or over are entitled to full social security benefits on their deceased husbands' accounts if they meet certain retirement tests, according to A. F. Silber, manager of the social security district office in Lincoln.

A widow's rate is 3/4 of her husband's monthly benefit amount. Those who are insured on their own social security accounts may choose to claim their widows' benefits at age 62 and later take full benefits on their own accounts when they reach age 65.

Any widow whose husband died fully insured may receive widows' benefits for all months after she is 62 years old if her earnings from wages or self-employment are \$1200 or less a year. If her earnings are between \$1200.01 and \$2080 per year she may receive benefits for one or more months. Even when earnings total more than \$2080, during the year, a widow may receive benefits for any month in which she did not work in self-employment or did not earn wages of more than \$100.

A widowed teacher who had reached age 62 last April recently called at the social security office. Her total earnings will total more than \$2080 for 1960; however, she had completed her school term on May 27th and will not return to her duties until August 22 of this year.

Since she will have earned less than \$100 in the months of June and July, she was advised that she could file for two months of widows' benefits, at \$65 per month. She restricted her application to widows' benefits.

Then when she reaches age 65, based on probable average earnings of \$250 a month, she will be eligible to claim full benefits on her own social security account, amounting to about \$95 a month.

This lady also asked about her widowed twin sister who earns \$100 a month. Since at this rate of pay the sister earns no more than \$1200 a year, she can receive 12 months of widows' benefits for 1960 if she files her application before the end of the year.

All widows who draw benefits are required to file an annual report by April 15, after any year in which their earnings exceed \$1200, if they are under 72 years of age in any month of the year. Penalties apply to those who fail to make such a report.

Silber said that anyone who thinks she may be entitled to file a claim for either widow's insurance benefits or for benefits on her own social security account, should get in touch with the Lincoln social security office as soon as possible.

He also called attention to the fact that field representatives from that office make regularly scheduled visits to all larger communities. They will be glad to answer inquiries and assist applicants in filing their claims. A schedule of such visits is available at all post offices and in most other public offices.

2, 4-D Won't Hurt People, Expert Says

LINCOLN — Fruits and vegetables that have been exposed to the chemical 2, 4-D by accidental spraying or wind drift are safe for human consumption, according to John Furrer, Extension agronomist at the College of Agriculture.

Furrer said that 2,4-D is non-poisonous to warm-blooded animals, and therefore fruits and vegetables that have been exposed to the spray may be eaten without fear.

"In fact the Federal Food and Drug Administration has established a tolerance of five parts per million for 2,4-D on certain fruits and vegetables to testify to its safety," he added.

Furrer said that although the fruits and vegetables are safe to eat, precautions should be taken to prevent damage to the plants since there is often a great loss in their productivity. He recommended the following measures to prevent accidental wind drift damage:

—Stay a reasonable distance away from the garden when spraying;

—Make sure the breeze is in the direction away from the garden;

—Use the amine salt form of 2,4-D rather than the ester form which is more likely to develop fumes.

During the decade from 1960 to 1970, employment will continue to grow faster in the service industries than in the production industries, with a continued decline in farm work and unskilled occupations.

The National Safety Council, which cites those facts from the 1960 edition of "Accident Facts," its statistical yearbook, adds that motor vehicle accidents — No. 1 accidental killer — claim a life every 14 minutes.

Accidental Death Every 6 Minutes

CHICAGO — Accidental death visits a home in America every six minutes.

It takes 249 lives every day, 1,750 lives every week, 91,000 lives a year.

This means that while you chat 10 minutes with a friend, two persons may die and 175 be injured in accidents.

Nehawka

Mrs. Bob Gausman, Davenport, Neb.; Mrs. George Martin, Union and Mrs. Louis Crunk of Kansas called at the Wm. Jorgensen home Tuesday. Mr. and Mrs. George Martin were supper guests Tuesday evening of the Jorgensons.

Mr. and Mrs. Thurmond Nixon, Mrs. Sybil Nixon spent Friday with JoEllen Nixon in Omaha.

Mark Allen Gude of Nebraska City was a weekend guest of the Bill Rosses. Dianne Ross spent several days with the Bill Ross and Louis Rosses.

Mr. Leonard Thorne and daughters spent the day Friday with Mr. and Mrs. Guy Murdoch.

Mr. and Mrs. Harold Scharp and Stevie were guests of the Roger Webers of Cook, Nebr., Thursday.

Mr. and Mrs. Arnold Debus, Omaha, were guests Saturday evening of Mr. and Mrs. Walter Wunderlich. Mr. Debus is vice president of the Federal Reserve in Omaha. Mr. and Mrs. Phil Amis and granddaughter, Becky of Omaha stopped at the Wunderlich home Sunday afternoon enroute home from the Wunderlich cabin in Colorado.

Dr. and Mrs. Harry Hebard of Plattsmouth and their son-in-law and daughter, Dr. and Mrs. Cuxhausens and three children were guests Friday at the Wunderlich home. The Cuxhausens have just returned from a three year tour of duty in Germany. Mrs. Cuxhausen was formerly Mary Hebard. After a furlough the family will move to Leavenworth, Kansas.

Mr. and Mrs. John Dietl and three daughters returned Saturday evening from a vacation of a week at Perham, Minn.

Mrs. Hall Pollard accompanied Mrs. Jack Harris of Union to Weeping Water Sunday to attend a shower given for their niece, Susan Stone, at the home of Mrs. Clarence Norris, Miss Stone, a former Nehawka resident, will marry Glenn Newby of Iowa in Lincoln on August 21.

Mr. and Mrs. Clarence Geisler and son, Gaylon, Hay Center, Nebr. left Monday morning for Kansas City after spending the weekend with Mr. and Mrs. Clifford Trotter.

Mrs. Doris Pollard has accepted a position with Kilpatrick's of Omaha.

Mr. and Mrs. Ed Snyder and family visited with Mrs. Minnie Poling at Nebraska City Sunday and attended the boat show.

Mr. and Mrs. George Lutz and Peter, Mr. and Mrs. Anton Wirth, Nebraska City were supper guests Thursday of Mr. and Mrs. F. O. Sand.

Mr. and Mrs. Richard Stone and sons, Carol Stone of Omaha and Mrs. R. B. Stone were dinner guests Sunday of Mr. and Mrs. Chester Stone and Mrs. John Petrov and sons. The Richard Stone family, Mrs. Petrov and sons attended the circus in Omaha Sunday evening.

Norma Ross, Omaha, spent the weekend with her parents, Mr. and Mrs. Sterling Ross.

Look for Man With Pencil And Fly Rod

LINCOLN — Nebraska fishermen may meet a man with pencil in one hand and rod in the other pretty soon. He may be in a northwestern trout stream, or trolling a reservoir, or sitting beside a farm pond in the southeast.

He will be out in summer dog days and deep winter. He starts angling this month, on a project that is unique in the United States.

He is a Game Commission fisheries biologist, who will be mapping and angling every stream and lake in Nebraska that supports a fishable population. Hints and helps he picks up from each area will be passed on to sportsmen via newspaper releases, and later a brochure.

"Too Many of our game fish are caught by too few anglers," Keith Kreck of Valentine, district Game Commissioner, said in releasing the information.

"The old saying that 10 per cent of the fishermen catch 90 per cent of the fish is certainly true in Nebraska, particularly in the Sand Hills lakes and in the reservoirs.

"We need more fishermen, and this project is initiated to help Nebraskans become better and more successful anglers."

Keith Donoho, formerly fisheries biologist at Alliance, has been picked to head the project. He will spend full time in checking waters over the state, determining such things as where and how to fish, best baits to use for certain species, how deep to fish during certain times of the year, and anything

else that will help the average fisherman catch more fish.

Part of his job will be to find out how the average fisherman can catch more fish during the hot months when most fishing generally falls off, and also during the winter months. New fishing methods for certain species will be tried out. Donoho will also evaluate methods for better usage of non-game species.

Starting point will be the reservoir area, later this month.

JOY TO SADNESS

Denver — When she found her change from a supermarket purchase included three rare 1921 silver dollars, Mrs. Joanne Smith was elated. She is an enthusiastic coin collector.

But her high spirits were soon deflated. At home, she found that 70 silver dollars and \$200 worth of Jefferson and buffalo nickels had been stolen from her collection.

Starting point will be the reservoir area, later this month.
