QUIZ-INFORMATION

In case anybody should ask: the word "cereal" came from Ceres, Roman goddess of agriculture. Ceres would consider this a divine idea: Crush cornflakes between two folds of waxed paper; use them instead of bread crumbs a-top your next casserole. Dot with butter, sprinkle with grated cheese, if you like.

SKIP STORMS

Cut up your old clothesline for jump-rope! "Go modern" with a gas clothes dryer, before another Summer storm spoils wash-day. Year around, day or night, wash without a weather-worry. A gas clothes dryer doesn't demand watching, toting or fretting! Today's dryers wear dials; every type of fabric can be dried at proper heat and gentleness. Gentle hint: Your local gas company or neighborhood gas appliance dealer displays them.

GLAD IDEA

Praise the long life of the gladiola! I "start" the cut long-stemmed glories in a tall vase before the hearth. As lower blooms fade, I clip them off, shorten stems and move flowers to a silver pitcher on the coffee table. Two days later, stems and blooms shorten again; remaining array moves to my brass teapot. Last, far-from-least, top blossoms are plucked off; floated in a low glass bowl.

CUES FOR COLLEGE

Getting Daughter's college wardrobe ready? These launder-hints may help: Even the "bulky" sweater can be washed at home with new cold-water soaps especially made for wooleens. Knit dresses, however, retain better hemlines and silhouettes if they're dry-cleaned. Can velveteens and jerseys be laundered? Mind the manufacturer's labeled comments. Or test first, by cutting a piece from an inside seam. Launder it; dry it. Like it? Then do the garment.

CORNER-BEEF CASSEROLE

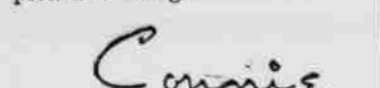

I'm for quick-fix casseroles, to bake while I'm out of the kitchen! So is Mrs. Willard M. Sebrant, Minneapolis, Minn. Here's her favorite: Cook one 8-oz. package spaghetti till tender. Simmer 1/2 cup diced onion in 1/4 cup butter. Combine with 1 can Cream of Mushroom soup and one can milk, 1 small can mushrooms (juice and all), 1 can corned beef, crumbled, plus blanched spaghetti. Mix lightly; fold in 1/4 lb. grated cheese. Place in buttered casserole. Sprinkle 1 cup buttered bread crumbs on top. Bake one hour in 350-degree gas oven.

SUPER-SCRUB

Timely word from Mrs. Robert Steig of Nevada, Iowa: Potatoes, carrots, radishes and other fresh vegetables "come clean" in a jiffy, if you scrub them with a plastic scourer.

PIPING PLEASURE

Ancient Chinese piped natural gas through bamboo. Americans, as recently as 1870, piped it through white pine logs and thought 25 miles a tremendous piping distance! Today, Northern Natural Gas Company uses steel pipelines to transport gas hundreds of miles to your town, and your local gas company, who pipes it to you. Steel pipelines go over rivers, underground, through hills and mountains — to pipe more pleasant living.
