Deer Hunter Total May Equal 1959

LINCOLN — At least as many deer hunters as last year will be out during the 1960 season, is the prediction of L. P. Vance, game chief of the Game Commission.

"We are less than 900 permits away from last year's total rifle hunters right now," Vance said. "It now looks like we will at least equal the 11,004 permits issued last year."

Vance added that the 35,000 acres wiped out by the recent fire in the Pine Ridge have not affected big-game hunting success in any way. "Although this seems like a big figure, it is only a very small part of the actual deer and antelope range in northwestern Nebraska."

With opening of bow hunting just a few weeks away, archers stepped up their applications for deer within the past week. To date, 560 permits have been okayed; the number is unlimited for any deer, any sex, anywhere in the state. Bow hunting starts September 10, and runs to December 31 exclusive of deer rifle season.

Only 44 rifle permits remain to be taken in the Eastern Platte unit for deer. Total authorized here are 500. Hunting here, as in the 15 other rifle units, will run from November 5 through 9. Next closest to being filled is the Central unit with about 100

permits of 1,250 left. The Omaha and Lower Missouri units are already closed.

Applications are available from conservation officers, county clerks, and Game Commission district offices at Lincoln, Norfolk, Bassett, North Platte, and Alliance. They are processed on a "first come, first served" basis.

Following are the number of applications for rifle permits for deer by area, with the authorized number of permits for each in parentheses:

Pine Ridge, 2,537 (3,000); Plains, 238 (750); Upper Platte, 514 (1,000); Western Sand Hills, 599 (1,000); South Platte, 491 (1,000); Southwest, 433 (750); Keys Paha, 542 (750); Central Sand Hills, 407 (750); Central, 1,119 (1,250); Central Platte, 841 (1,000); South Central, 173 (250); Upper Missouri, 659 (750); East Central, 672 (750); Eastern Platte, 458 (500); Omaha, 250 (250); and Lower Missouri, 250 (250).

'FORTUNE' COOKY

Newburgh, N.Y. — Sometimes good fortune results when the cooky crumbles. Mr. and Mrs. Carl Sandberg of Newburgh bought a dozen brownies from a bakery and found a hard lump in one.

expensive diamond sapphire ring. The Sandbergs took the ring back to the bakery, where it was claimed by Mrs. Lucy Vandyler, who lost it while mixing dough.

Baker Finds Luzon Unusually Damp

Don Baker left Travis AFB Aug. 16 and after 6,000 miles of choppy riding (in spots) and also rain arrived at Clark AFB, the Philippines, late the night of Aug. 18.

The rainy season is in full force; more than 40 inches have fallen so far this month, he reports. That and the breaking of a dam have flooded several provinces on Luzon, making as many as 200,000 homeless.

Air has been the only way into Manila (Clark is 60 miles north of Manila.)

For a time, only those living off base were allowed off. Clark and the nearby town of Angeles are the only places in the province of Pampanga not submerged.

With all the moisture even the walls are getting covered with mildew, and still it rains, the former Plattsouth teacher, now teaching on Luzon, says.

Mr. Baker has been assigned to the high school to teach World History and Government.

The only money that goes as far today as it did ten years ago is the dime that rolls under the bed — Clinton (Iowa) Herald.
