Junior High Has Panel Discussion

On November 21, in the Old Gym the Junior High was assembled for a Panel Discussion on the topics of school policies and scholarship.

Members of the panel were the officers of the Student Council: president, Roger Heedum; vice-president, Pat Holliday; Secretary, Suzan Evers, and treasurer, John Thompson.

The first topic of discussion was respect for teachers, our principal and classmates. It pointed out that there are only a few students who have a lack of respect.

Attitude toward school work was then discussed. It was mentioned that if you haven't a good attitude then you can't get good grades.

School policies were discussed, gum chewing to some length. Suzan Evers pointed out that it's not so much the chewing of the gum as the misuse of it, such as putting it in drinking fountains and on desks.

The importance of good grades was taken up and Pat Holliday pointed out that good grades will not only give you the chance of a good-paying job, but also that there is a certain self-satisfaction in getting high marks.

President Roger Heedum then explained the significance and duties of the Student Council, and that it is to represent the students.

Then questions from the audience were asked and a summary given.
