Planning to remodel or add a new room?
Use FLAMELESS Electric Heat!

4 TYPES OF ELECTRIC HEAT

- RADIANT CABLE
Hidden in the ceiling... radiates sunshine warmth.
- WALL HEATERS
Recessed into the wall to heat quickly and get rid of cold spots. Built-in thermostats.
- BASEBOARD HEATERS
Modern, low-level perimeter heat spreads a shield of comfortable warmth against cold walls.
- PORTABLE HEATERS
Movable heaters that can be taken from one room to another. Ideal for dens, playrooms and basements.

COSTS LESS THAN YOU THINK!
You save many ways with ELECTRIC HEAT... you save on cleaning and redecorating bills, and on housekeeping time, because your walls and furnishings stay clean longer.

Owners of older homes and those who want to add a room are finding it practical and economical to convert to ELECTRIC HEATING.

Prices of combustible fuels have followed the rising pattern of most commodities, whereas ELECTRIC RATES have not increased in costs. So, if you plan to remodel or add a new room, insist on ELECTRIC HEAT... it's clean, it's economical... it's safe!
