Wayne and Richard Gregg spent Saturday with their grandmother, Mrs. Roy Gregg of Plattsmouth.

Mr. and Mrs. Fred Meisinger

—U.S. Worker

Continued from Page One
bundance is widely shared by ordinary American citizens, the peoples of the Soviet Union must content themselves with their government's distant promises of future prosperity. For the present, Soviet achievements in space cast a euphoric shadow over the country's acknowledged shortages of food, clothes and housing, and the astonishing growth of Soviet industry provides little satisfaction for the demands of everyday Soviet consumers.

With or without material wealth, the hallmark of American society—and—the proudest heritage of its people—is its free institutions.

To the American worker freedom has come to mean the right to organize, the right of collective bargaining with an employer, the right to engage in concerted action for better wages and working conditions, and the right of grievance procedures. On the other hand, it assumes that he will exercise his rights responsibly in the best interests of the whole society.

The goals of the American worker in the years ahead will be the improvement of his high standard of living and the preservation of his free institutions. He knows that these can best be accomplished in a world at peace.

As we justifiably applaud our achievements, so we must confront our shortcomings. On this Labor Day, more than 5 million men and women are out of work. Well over half the major industrial areas in the country are experiencing substantial unemployment. Many industries are operating at below capacity levels. Steel output is only about 67 per cent of capacity.

With these insufficient levels of production, a high rate of unemployment is inexcusable. The story of unemployment is not one of "labor surplus," as the jobless have often been called. Rather, it is a story of wasted human and material resources.

This Administration is not satisfied with the present unemployment situation. We believe that the unemployed can be returned to work in a vigorous and expanding economy. As President Kennedy said recently, "I have no intention of learning to live with prolonged and severe unemployment, with all that it means in human misery and economic waste."

In these crucial times, American labor faces new challenges on the economic front. The need for new high levels of production will entail continuing technological progress.

I am confident that both free labor and free management will respond with renewed purpose to their responsibilities.

They will need to develop more enlightened relations with one another on a continuing basis.

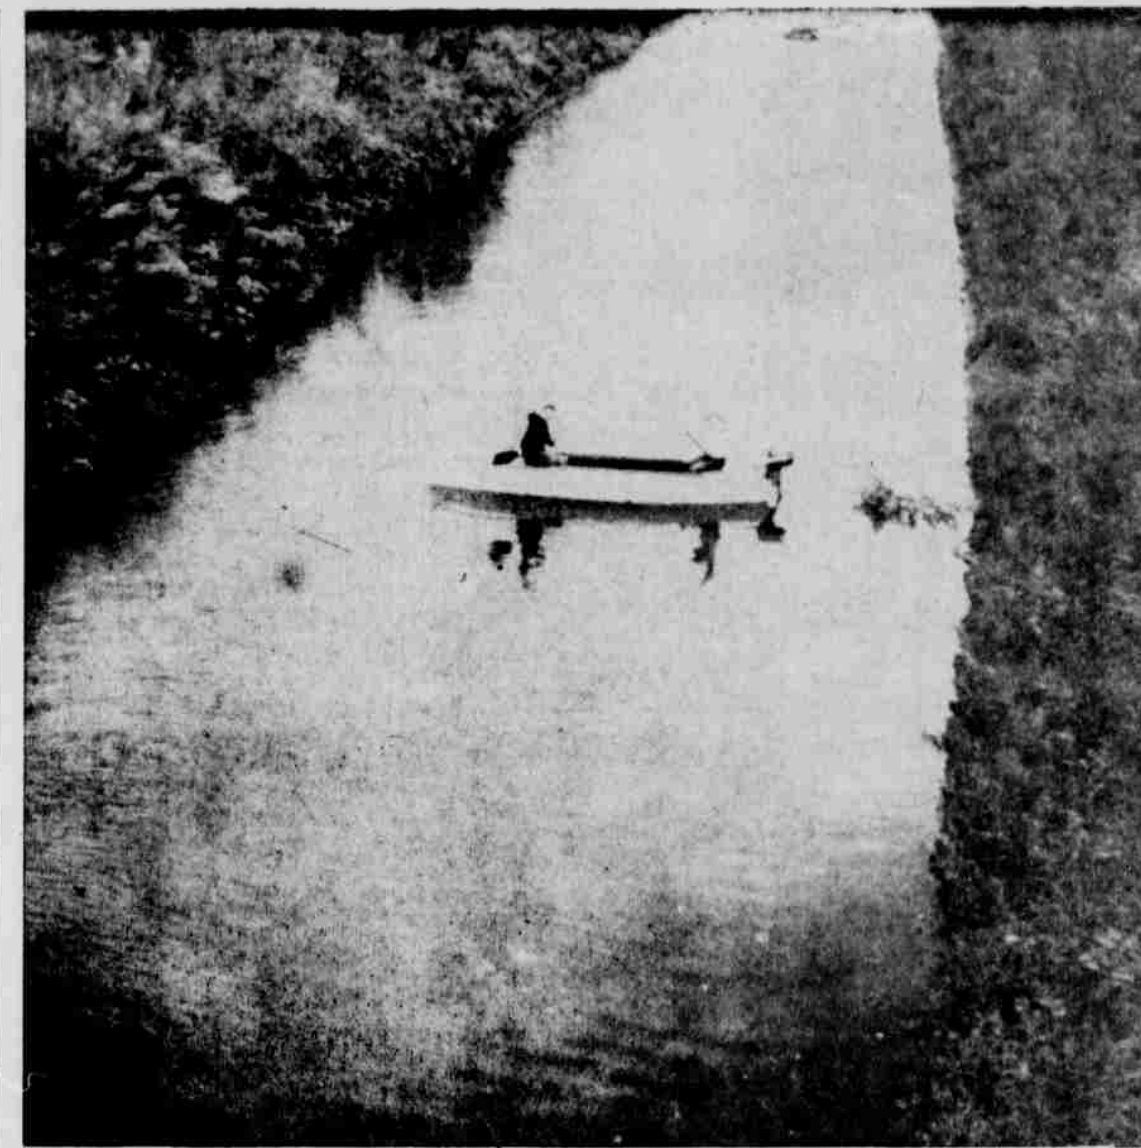

They will need to accommodate their own interests to the overriding interest of the public welfare.

They must continue to demonstrate their ability to reconcile separate viewpoints into common goals and common actions, thus giving living testimony to our proud claim that we come nearest of any nation to being a classless society.

Without relinquishing its right to strike, labor, in cooperation with management, must build new mechanisms in insure the peaceful solutions of their differences.

When each side accepts the rights of the other, and when both sides accept the rights of the general public, then industrial peace will prevail.

As we take stock of ourselves on this Labor Day, let all working Americans—whether in industry or trade, in large firms or small shops, on the assembly line or in an office, in government or in education—re-dedicate themselves to their constitutional commitments to promote the common defense and safeguard the general welfare.

CRUISIN' ON THE CREEK—Tye Finney and Larry Beavers, both 13, wave from their homemade boat as they get ready to go back down Four Mile Creek to their campsite northwest of Plattsmouth. The boys and Tye's brother, Todd, 10, and father Clark Finney ushered summer's vacation out with a flourish on a camping expedition.

Camping Out Good Way To End Vacation

Camping out is a good way to end a summer's vacation, even though the camp-out is too short.

Tye, 13, and Todd, 10, sons of Mr. and Mrs. Clark Finney of Plattsmouth; their father and Larry Beavers, 13, son of Maj. and Mrs. Luke Beavers of Offutt Air Force Base spent several days and nights the past week camping out on Four Mile Creek northwest of here.

Clark had to work days but spent nights with the boys who had a ball at fishing, swimming, trapping (in season) and cooking and sleeping out.

Friday when Mrs. Finney went out to see if there were anything she could bring them, Tye and Larry cringed. "A big mess of raw vegetables!"

"And cut some holes in them," Larry added.

The boys haven't cracked under the pressure of outdoor living. They're just partial to shishkabob.

Clark Finney and his boys built the 13-foot boat in which the boys reach their camp site from a road near here.

It started out as a sort of kayak, got changed in plan along the way and ended up as a real treat for the boys who bought a used outboard motor for it.

They christened it an apt name for its first journeys along the Four Mile's often obstructed way. "Old Hardsnose."

There was only one thing wrong with the whole adventure—it was going to be awfully hard to end it all and go to school come Tuesday.

Getting Your Puppy's Shots

By James E. Boyd
Dr. of Veterinary Medicine
The new born puppy is protected against many diseases through antibiotics in the mother's milk. This provides protection until 6-7 weeks of age.

At this time the puppy is usually moved to a new home and the possibility of exposure to disease is greatly increased. Therefore the immunizations should be started at 6-7 weeks of age.

The immunizations a puppy should have will depend upon the diseases prevalent in the community.

In this area Canine Distemper and Canine Hepatitis are of frequent occurrence in unvaccinated dogs. Therefore immunizations are of course required by law and are necessary for the protection of human health, as well as the animal's health.

Though a pet is confined to the yard, it may be exposed to the bite of rabid rodents, skunks, bats or other wild life; therefore a Rabies immunization is still necessary.

Rabies immunizations are given at 3-4 months of age and yearly thereafter.

Motorists: You Must Protect Kids

"Motorists—it's your responsibility to keep the school children safe in traffic!"

In these words, Col. C. J. Sanders, Nebraska Safety Patrol today reminded motorists that September is the back-to-school month and that the nearly 1,300 school buses in Nebraska will be on the roads again.

Last year two school children were struck and killed as they stepped off of school buses.

To prevent similar tragedies from happening again this school year, Col. Sanders reminded motorists that the state law provides for a reduction of speed to 25 miles per hour upon the flashing signal of the school bus indicating an intention to stop and for all motorists to stop and remain stopped, regardless of direction of travel while the school bus, with side arm extended, is loading or unloading and until the bus resumes motion or until the motorist is signalled to proceed by the bus driver.

This rule does not apply to motorists approaching from the front on a divided four-lane highway.

Col. Sanders concluded, "Parents also have the responsibility in the safety of their children and should assist the school in teaching their children to obey all the school bus safety rules and to look both ways before crossing the street or road when going to or coming from the school bus."

Eagle School Items

EAGLE (Special)—The Eagle School Bus drivers are William Trumble, Larry Caddy, Elvin Umland, Carl Oberle, Walter Nickel, Eldon Oelkerking and Wesley Lowell.

The Kindergarten classes are divided into two sessions of one-half day each.

Forty-one young folks are enrolled in the 1st grade.

Garrison H. Davidson, General Commanding 7th Army in Europe:

"We stay ready here all the time, and we are just as ready today as we were last month or last year. Readiness has been our business for the last ten years."

Obituary

Roy E. Howard
Funeral services were scheduled for Roy E. Howard, Murray, at 2 p.m. Sunday, Sept. 3, at Sattler Funeral Home, Plattsmouth.

Mr. Howard was born Jan. 3, 1884 at Mynard, Nebr., son of the late Edward S. and Martha M. Howard. He died Aug. 31 at the Clarkson Hospital in Omaha after suffering a heart attack on Aug. 26.

He was married to Mildred M. Warner on March 16, 1904, at the family home west of Plattsmouth. He spent his lifetime farming.

Mr. Howard was a member of United Presbyterian Church, Murray; also of Lodges AF&AM No. 6, and Blue Lodge.

Surviving are the wife, Mildred M. of Murray; daughter, Mrs. Mabel Meisinger of Plattsmouth; sons, Charles E. of Los Angeles, Calif., R. Edward of Murray and Grant W. of Minneapolis, Minn.; nine grandchildren and five great grandchildren, as well as a brother, William S. Wetenkamp of Plattsmouth.

A sister, Mrs. Mark Wiles of Plattsmouth, preceded him in death.

Officiating at the funeral services, the Rev. Joseph Barr, pastor of the United Presbyterian Church, Murray; Dale Wohlforth, Murray, soloist, accompanied by Mrs. Charles Spangler, Murray.

Casket bearers: Lloyd Ranney, Howard Wiles, Charles Mead, Olin Morris, C. A. Wetenkamp and Glenn Wetenkamp. Flower bearers: Mrs. Olin Morris and Mrs. Howard Wiles.

Interment was to be in Pleasant Ridge Cemetery, Plattsmouth.

Visiting hours: Saturday 3-5 and 7-9 p.m. at Sattler Funeral Home.

School Staff Is Feted at Eagle

EAGLE (Special)—An Eagle Schools Staff reception was held on Friday evening, Aug. 25th at the schoolhouse with Supt. and Mrs. Paul Embree host and hostess for the evening.

Sixty guests were present including all personnel connected with the school.

Following the get-acquainted and social hour, light refreshments were served.

BEAVERS WIN 2

EAGLE (Special)—The Eagle Beavers girls baseball team, won their 2nd game of the tournament from Seward Monday evening and defeated Whittier girls team Wednesday at Lincoln, 15-1.

Leaf Spot Hits Corn Fields in SE Nebraska

LINCOLN — Many low-lying corn fields in southeastern Nebraska have been hit by leaf blight which could cause serious conditions prevail during the next few weeks.

"Yields may be reduced 25-50 per cent on early-infected bottom land fields," according to Dr. John Wehling, University of Nebraska Extension plant pathologist. "Dry weather in the next few weeks would stop development of the disease."

"Usually it is too dry for leaf blight of corn to develop in Nebraska, but it has occurred the past three years," Dr. Wehling asserted. "Epidemics of the disease usually occur in the western states."

"Leaf blight (helminthosporium) causes dead areas that are oblong in shape and parallel with the leaf blade. The spots may spread until the entire leaf is killed. In advanced stages, the entire plant may die."

"Growing resistant varieties of hybrid corn is the principle means of control," Dr. Wehling reports. "Fungicide applications for control of this disease would cost too much and would be difficult to apply at this time. Crop rotation and complete coverage of crop residue also will assist in controlling the disease."

of Murray called at the Charles Bates home Sunday.

Mrs. Robert Adkins and daughter and Mrs. Ida Hicks accompanied Mrs. Bob Wunderlich and children to Nebraska City Sunday to attend the show.

The Raymond Mayfield family of Garland, Nebr.; Richard Norris family of Avoca; Bob Johnsons of Talmage; Henning and Tom Johnsons, Boyd Mayfields, Richard Johnsons, Deane Nutzmans met in Lincoln Monday evening for dinner to observe the birthdays of Ray Mayfield, Tom and Henning Johnson.

SURPRISE MEETING

Pittsburg—A 30-year-old bartender, John Tambellini, was telling a customer he hadn't seen his father in ten years—since he left Italy.

He casually pointed to another customer remarking that he looked like his father.

Seconds later he leaped over the bar shouting: "My gosh, it is my father."
