TD POSTPONED—Plattsmouth's first touchdown against Falls City Friday night was momentarily postponed on the play above when Falls City rose up to stop Fred Groce for no gain on play from the half-yard line. Groce is in melee of dark-shirted Falls City players at left. Dave Nettelman went over for the score on the next play, however.

Impetus of Homecoming Victory Will Be Needed Against Bellevue

Plattsmouth High's Blue Devil gridgers, who gave their adherents the biggest present in many years, a 12-7 Homecoming victory over Falls City Friday night, cannot afford to bask in the glory of that victory.

It was sweet, and the second straight after three losses (two of which could easily have been wins), but there's work ahead.

Definitely, the tough part of the schedule is just around the corner, beginning here Friday night when Bellevue comes in. Games with Nebraska City and Fairbury follow on succeeding weekends.

Coach Norris Hale Saturday was smiling and had praise for his squad, but almost in the same breath he worried aloud about the games coming up.

Friday night, the Devils spotted a rugged Falls City team seven points and then clawed their way to victory, spurred by a brilliant 75-yard punt return by Jack Scott who had almost but not quite got outside several other times this season.

This time it was 75 for Falls City in the second quarter when the quick Plattsmouth back got his chance.

He had to run almost the width of the field to escape the first contingent of tacklers. At the midfield he got some great blocks and he legged the rest of the way without obstacle, was

HIS TD WON—Jack Scott, Plattsmouth quarterback-halfback scored the winning TD here Friday night, getting good blocking after outrunning his first four pursuers on a 75-yard run with a punt.

downed by a desperation grab just as he crossed the goal line. That brought the final score of 12-7 but there was a lot of football left, including some great defending by Tackles Al Konfrst and Rodney Fackles and a last-second batting of a Falls City pass by Bill Nettelman at a time when a completion might have turned the tide.

There were many other Devil standouts in a game in which defenses played an important part.

Before Scott's punt return, Falls City had gone ahead half-way through the first quarter when Dave Martin ran 40 yards to the Plattsmouth 22 and then slanted right and raced to coffin corner on the next play. Falls City ran the point for a 7-0 lead.

Plattsmouth got a break and a touchdown after about four minutes of the second quarter.

End Corky Adkins recovered a Falls City fumble at the visitors' 19. The Devils scored in six plays.

Dave Nettelman got eight yards, Groce was stopped for no gain, Nettelman got one and nine before Groce was swarmed down and Nettelman punched across the last half-yard on second down.

Scott's kick was wide but he more than made up for it with his touchdown run about four minutes afterward.

The defenses took over, Plattsmouth dug in and forced a punt with about two minutes left, then stalled out the remaining time without taking a chance of fumbling.

It was a good victory, well-

earned and the impetus will be needed when Bellevue comes in Friday. Despite reversals in recent games, Bellevue is sure to be tough, scouting reports indicate.

ARE NARCOTICS NECESSARY?

As with almost everything, narcotics can be used—and abused. Abused, they are an abomination and should be prohibited. Used medicinally under the supervision and prescription of physicians, narcotics are useful instruments in restoring health. They ease pain that otherwise would be unbearable... induce sleep that otherwise would not come. As pharmacists, we are entrusted with the safekeeping of narcotics and dispense them only on written prescriptions.

It's the unity in a community that gets the job done

the job in Scottsbluff A COMPLETE COMMUNITY INVENTORY

Consumers Public Power District's steam generating plant is pictured against a backdrop of the Scottsbluff National Monument. Consumers has just let a contract for the installation of a 22,500 kilowatt turbine generator, the third generating unit to be installed at the Scottsbluff plant since 1946, to serve the ever increasing demand of this and other thriving communities in western Nebraska.

The community inventory is reviewed by, standing, left to right: Paul F. Harm, Scottsbluff Chamber of Commerce manager; Carsten D. Leikvold, Scottsbluff city manager; Charles H. Davey, president of the Scotts Bluff Industrial Corporation; and Charles D. Sayre, Consumers Public Power District community relations director; seated, left to right: C.E.A. Johnson, CPPD western system manager; William E. Nichol, Jr., Scottsbluff mayor; Millard A. Yost, Chamber of Commerce president; and Leslie H. Hilliard, vice president of the Scotts Bluff Development Corporation.

As the first step in a comprehensive community development program, the citizens of Scottsbluff have just completed a complete survey of the city's resources.

Among the groups participating in the inventory was the Community Development Department of Consumers Public Power District. The Department has a three-fold objective: to improve the economic position of existing businesses; to assist in establishing new

"home-grown" industries; and to persuade out-of-state industries to locate in Nebraska. The Department is prepared to cooperate with local, state and federal agencies towards the realization of those objectives.

Interested in the growth and development of each of the 35 communities it serves and of the state as a whole, Consumers Public Power District satisfies every electrical power need of industry... business... the farm... and the home.
