"How Should I Know Where Her Medicine Is!"

"Doesn't she know it's foolish to write away for medicine when she can get it right away at a pharmacy?"

The postman isn't to blame when medicine is delayed in the mail. Out-of-town "prescription factories" simply can't give the quick, dependable prescription service provided by our pharmacy.

And the sooner you get your medicine, the sooner it can begin to help you regain your good health. For peace of mind—have your prescriptions filled by us immediately.
