PCA CREDIT

Production Credit Association

Is the Key to More Efficient Farming

Today's farmer needs to use every tool of modern business. One very essential tool is credit. Every farmer is requiring expanded credit—

- to increase mechanization everywhere on the farm for greater efficiency.
- for capital needs to modernize, for fertilizer, and for general farming needs.
- for purchase of feeder cattle, sheep and other livestock expansion.

Your local Production Credit Association can supply ALL THESE NEEDS... BEST

- You can get a "line of credit" to supply you with ALL your money requirements. The money is available whenever you want it—and costs nothing until actually borrowed. This is particularly handy for farmers who want to buy feed!
- You can finance all your capital improvements with PCA—such as buildings, tractors, machinery, materials handling equipment, etc.
- You can finance production needs such as feed, seed, fertilizer, gas, etc.

Take advantage of working with One, Specialized, Dependable, Low Cost Source for ALL your Loan Needs... your local PCA. Farmer-owned and operated credit co-operatives means that only the members own and operate each local PCA for the benefit of the farmers in their community.

Investigate TODAY—PCA Advantages are MANY!
