Grading Asked

Action on a request to grade 7th Avenue from 1st to 3rd on Wintersteen Hill so that interested residents can rock the street Monday night was tabled for future City Council decision.

George Bax and another resident of the area were at the Council meeting to make the request, Bax said a petition for paving had been defeated "by 70 feet."

The Council deferred action and Councilman Warren Rhylander and Street Commissioner Art Hellig inspected the street with Bax. Rhylander today said he recommends the street be paved instead of rock and that there may be enough approval by property owners for a paving proposal to carry.

Construction of Sidewalk Ordered

The City Council Monday night adopted a resolution ordering property owners to construct a sidewalk on the south side of Patterson Avenue from Chicago Avenue to Clinton Street at the top of the hill.

Owners of property will be served with copies of the resolution.

Sidewalk along the recently improved street had been asked by several persons, including a committee from Columbia School PTA which addressed the Council several weeks ago. The committee said the street is generally used as access to Columbia School by children and advised installation of sidewalk as a safety measure.

Extension Granted For Cleaning Up Burned Theater

G. G. Griffin, owner of the Plattsmouth Theater property on Main Street between 6th and 7th, Monday night was given an extension of time allowed for cleaning up the property.

The City Council had previously notified Griffin he had to clean up the property (the Theater was burned in the fire last June 23 which also destroyed the Hotel building "within 30 days").

Griffin said he was having difficulty getting the work done. He said he would like to take the remaining walls down to a "safe level" because he has been told there is reconstruction value in the walls.

After discussion, the Council passed a motion instructing him to bring the walls to a safe level and clean up debris by July 1 and set a deadline of Oct. 1 for new construction to be started or, if it is not started, to bring the property to lot level.

Griffin said he had immediate plans to remove debris.
