Are you risking

RUIN

with inadequate business insurance?

You may be unless your business is insured through an independent insurance agent.

Only an independent agent can make sure all your insurable risks are covered by insurance. No single company can do this—because no one company offers every type of business insurance.

If you buy insurance directly from a company, it's likely you'll hear only about the policy or policies that company offers. An independent insurance agent, however, is free to choose the best business insurance policy from hundreds offered by different, competing companies.

The Big Difference in car, home, and business insurance is the continuing, personal attention of your independent insurance agent.

Let us give you the facts on how the Big Difference can help you. Stop in or phone. No obligation, of course.
