Mynard Jolly Feeders

The Mynard Jolly Feeders 4-H Club met at the home of Bob and Mary Lochman.

The meeting was called to order by the president, The answer to roll call was "The Reason You are Feeding Your Project."

The club leader showed slides of dairy grooming and showing. Mary gave a demonstration on kinds of sheep.

The junior leaders gave reports on reasons for judging. They also showed the younger members where the different

cuts of lamb are on the sheep. Bob gave a demonstration on blocking the market lamb. Some of the members took turns using the clipper.

Lunch was served. Next meeting will be at the home of Joyce, Delbert and Ronnie Puls June 4 at 8 o'clock. —Bob Lochman, reporter.

Freezer Wrapping From Corn Starch

LINCOLN — Shucks! It's a freezer wrapping. Films made from amylose corn starch have been developed as packaging materials for frozen food products. The Midwest Research Institute in Kansas City, under contract with the State of Nebraska, is waiting approval of the film by the U.S. Food and Drug Administration.

Eventual commercial production of the film could create a significant new market for ordinary field corn, as well as the new high amylose varieties.

The films tested remained clear and flexible under freezing conditions. The films which have been developed include types which completely dissolved in hot water. Others disintegrated on contact with hot water.

Uses for the film include the wrapping of meal-size portions of vegetables which may be dropped, packaged and all into boiling water. Such uses are being tested for consumer acceptability.

Four carloads of eighth graders enjoyed the show, "Cinema Holiday" at the Cooper Theater in Omaha, Wednesday evening. Adults accompanying them were Mrs. Allen Koop their teacher and Mr. Koop, Mr. and Mrs. Ralph Weite, Mrs. Richard Streeter and Mrs. Jim Drinnin.

Westside Seniors' Prom Nite Event

Went Rolling Along

A drive by parents of West Side High School of Omaha to keep their Seniors off the highway seemingly proved successful Friday night.

After their Omaha Prom, the 250 students were allowed to go home and change clothing. They boarded a five passenger car special train at 1:30 a.m. for a three-hour trip to Louisville. Two baggage cars were furnished as dance areas.

The train arrived at Louisville Lakes at 4:30 a.m.

At the lakes, the students were surprised with a special breakfast of hot cakes, sausages, coffee, milk — this was followed by a dancing contest. The student boarded the train again at 5 a.m. and headed back to Omaha.

The parents asked Sheriff Tom Solomon to be present and he was.

Gammel Cited by Company for Sales

Dick J. Gammel, Murdock, has been awarded an expensive trip by his company "in recognition of noteworthy sales." He has also completed part of an extensive training course which covers principles of stock and poultry feeding and management.

Gammel was guest at the company headquarters Tuesday and Wednesday, May 8 and 9, in Quincy, Illinois, location of the Moorman Mfg. Co. main plant.

The trip enabled him to see the company's manufacturing research and shipping operations. The visit included tour of all facilities and he learned of the research program and future plans. One phase of the tour was a trip to the research farm and modern dairy unit. There were

Elasticized nylon stockings are sheerly wonderful . . . sheerly lovely. They're so fine, you see right through them, yet they're so firm they give tired aching legs comforting support throughout the day. You'll like the looks of them — love the feel of them. And they're long-wearing, out-lasting ordinary nylons several times over. See them today. You'll be surprised how like sheer nylon hosiery they are. Only \$4.95 per pair.

Journal Want Ads Day

NOTICE!

To The Voters Of Cass County:

I would like to take the means of this ad to explain to you in part and to answer the ad that was run in the Plattsmouth Journal by my opponent, incumbent Sheriff Thomas S. Solomon, and to defend my platform if nominated and elected Sheriff of Cass County.

1. He states in his ad that I used the 1961-62 budget because it contained for the first time the salary, mileage and expenses of a second deputy. He also states that he saved approximately \$2,000 of the 1958-59 budget. The budget for the Sheriff's Office and Jail for 1958-59 was \$21,690.00. If he saved \$2,000 there was only \$19,690 spent. Now I would like to give you the budget figures for 1959-60 and 1960-61, which is a matter of record. The Sheriff's Office and Jail budget for these years were identical—\$29,280.00. Since the second deputy's salary, mileage and expense were not included in these years, WHY was the budget raised almost \$10,000?

2. He further indicates that I am attacking the budget because of the second deputy. This is not true, I am only trying to say that if the second deputy was living in the center of the county, it would cut mileage cost and would therefore cut down on the expense of this office. I am not critical of the second deputy now in service.

3. He also mentions that there is still \$6,500 of unused money in the 1961-62 budget. The bill for operating the Sheriff's Office for May and June has not been paid at this time and at around \$2,500 expenses a month the budget will only have \$1,500 left in it.

4. He further states that there is no pay going to a person to stay in the Sheriff's Office at night and also states that I have insinuated that there is no appointed matron. I would like to ask Sheriff Solomon what type of job John Kaffenberger is holding down as it lists his name in the Journal as drawing a salary for working at the jail since Feb. 20, 1961. I made mention of myself or one of my deputies living in the County Jail. And I quote from my letter, "This would insure the safety of the prisoners, as well as having a matron to handle all women and juvenile prisoners. Also this would do away with paying a man to stay there at night." I believe that if an officer of the Sheriff's Office lived in the jail it would put an officer in the jail at night and would enable his wife to act as matron. He further states that I did not mention the cost of maintaining a family in the jail. I cannot see where it would cost any more to have a family living there, than it does to have the Sheriff's Office there. Also I might comment that Sheriff Solomon lived in the jail with his family for quite a few years. These were years the Sheriff's budget was a good deal lower.

5. He further states that to put a man in the center or western part of the county would take three men on eight hour shifts. I maintain that if a qualified deputy is put in the center or western part of the county, to make the calls when he is needed and go on calls when he is called, it does not call for three deputies on eight hour shifts.

6. He also states that I have promised to the people in the western end of the county to police their towns and villages, and that this is not within the law. I only comment that I believe all people are entitled to the services of the County Sheriff's Office in Cass County.

My opponent summarizes his letter that, and I quote, "This type of campaigning has pitted community against community." My only comment to this is that I have made attempts to go from house to house throughout the county and this is the first time that I have heard this mentioned. I would like to say that if I am nominated and elected Sheriff of Cass County that I will be a full time working Sheriff and enforce the laws fairly, impartially and at a minimum of expense.

Your
Prescription
is still your
Best Bargain

Some people say prescription prices are too high . . .

It may seem they are too high . . . but not after a careful study of the facts. In the 'forties the price of penicillin was high, but only because it was little more than laboratory curiosity. All the penicillin made those days would treat only a few hundred persons.

Now look at the price of penicillin! Since its discovery it has dropped 99 per cent in price . . . and, because of better research and production, enough is produced yearly to treat 570-million patients.

Millions of Americans are alive today who might have died of tuberculosis, influenza, appendicitis and many other afflictions were it not for the sulfas, antibiotics and other "wonder drugs" that came after years of costly research.

What price should we put on the lives of these living Americans? Can we guess the value of just their economic contribution alone which would otherwise have been lost? Was it the life of a loved one saved? How much is 25 more years of life expectancy worth to you because of pharmaceutical research? Answer these questions and you will find YOUR PRESCRIPTION IS STILL YOUR BEST BARGAIN!

Safely compounded by your dependable pharmacist.
