NEBRASKANS were jubilant when Abraham Lincoln, on July 2, signed the bill for the first railroad in Nebraska. Throughout the territory the good news was cheered with steins of foaming beer.

For then, as now, beer was the traditional beverage of moderation. But beer has contributed more than just pleasure. Besides providing employment to many Nebraskans, the brewing industry utilizes many of the products grown on Nebraska farms, greatly contributing to the " state's economy.

TODAY in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.
