A sporty addition to the Falcon line for 1963 is this four-door Futura sedan, which sports a deluxe interior and exterior. Shown to good advantage in this picture is the new Thunderbird-type roof that is standard on all Falcon sedans for 1963. The new roof, and all-around styling refinements, give the Ford compact a lower, speedier look. Exterior ornamentation below the roofline matches that of other Futura models (convertibles and two-door sedans) in all respects—bright-metal moldings, unique wheel covers, and distinctive Futura identification.

Mrs. Frank Hurlbut — Phone 789-3435

At the September meeting of the Board of Directors, the problem of solicitors working in both residential and business areas brought forth several suggestions. Following a careful check, a card has been issued by the Chamber office stating that these persons and groups have registered.

However, too often, these cards have been presented as a recommendation by the Chamber. It is NOT a recommendation, ONLY AN IDENTIFICATION, and persons contacted should treat it as such.

Reports reaching the Chamber indicate that some of these sales persons and crews have been responsible for unpleasant incidents. In a few cases, they have become downright obnoxious in their efforts to close a sale. When these incidents are reported to the Chamber, further checks are made and if true the cards are picked up and those responsible are forced to move on.

Complete cooperation with the Chamber office by business places and residents of the area can do much to clear up this situation. Ask to see their identification card showing they have registered both with Police and Chamber.

This means only that they have been checked out. You make the decision as to any purchases. If your dealings are unsatisfactory, or these representatives become overly aggressive, notify the Chamber or Police by phone.

Henry A. Elliott, owner of the Red Oak, Iowa Credit Bureau, met with the Directors seeking endorsement of a proposed plan to set up a "top-notch" Credit Bureau for Plattsmouth and Cass County. Mr. Elliott operates one of the best recognized bureaus at Red Oak and several other counties adjoining, with references indicating his operations and services are unexcelled.

Chamber directors pointed out the great need for a complete service in this area, but warned of past experiences with hazardous operations. He will make a survey soon, using the Chamber offices as temporary headquarters, to seek support of not only an efficient and progressive credit reporting service, but a collection agency in conjunction.

The Chamber recommends that business people listen to a detailed explanation of his proposed project when he makes his personal contact soon.

Through efforts of the Chamber a large hearing aid company will open offices soon in the Casey building where services to the hard-of-hearing in this area will be available and will eliminate drives to metropolitan centers for service or consultation. Announcement of opening dates will be made in this newspaper soon.

According to reports by Geo. Smith, Chamber representative on the Board of Youth Center activities, this new enterprise for Plattsmouth has gotten off to a great start. Good programming and supervision by Mr. and Mrs. Tom Detwiler, managers, promise an excellent youth activity for Plattsmouth and vicinity.

Many inquiries have been made regarding proposed industry and building for Plattsmouth, much of which was promised to get underway this late spring. Checks by the Chamber office indicate that the stock market's "Blue Monday" of May has shut the throttle temporarily on expansion plans of several of these companies.

Until such time as the general economy makes more than a temporary upturn, it appears that most of these planned expansion programs will be held

up. Your Chamber office is in regular contact with representatives and will make every effort to get action as soon as possible.
