An open letter to Mr. Tom Solomon:

Dear Mr. Solomon:

In a letter which you addressed to the citizens of Cass County on October 5, 1962, you announced that you will again be a candidate for the office of County Sheriff. In this letter you said. "This comes about thru direct requests by so many citizens, the Clergy, and School Officials " We, of course, are in no position to question just how many "citizens" may have asked you to run, nor are we prepared to speak for the "School Officials." who ever they may be. We are, however, concerned about your inclusion of the Clergy in your list of supporters.

published in Monday's Journal and that he was supporting you as a candidate for sheriff.

So, it is very apparent that the "good names" of the ministers were obtained and used to give creditability to the letter and further the candidancy of a man.

I have had some visits, so far, with ministers whose signatures appeared on the letter and have learned that some of them did not completely understand the letter they signed. One informed me he was new in the area. Another stated he did not read the letter before signing and now is anxious to have his name removed. And others gave me their personal feelings. All of the ministers so far contacted indicated they gave no money towards its publication.

I visited with ministers in Elmwood and Murdock, and it was brought out that in these two areas and five more in the county, there never has been a juvenile case filed in court, nor ever a man reported or arrested in these seven areas for intoxication during my 16 years in office. These areas have no police of their own, and rely solely on the policing and night patroling of the sheriff's office which is, in most cases, 35 miles away.

A minister, from one of the county's 27 other churches, was rather disturbed that you, the candidate, asked him to use your name in his Sunday Sermon from the pulpit. Apparently you overlooked telling him about your record and qualifications.

In the Smith case I was not asked to testify before the Commissioners, Before the State, I testified under oath in the matter for which I had been subpoenaed. I have testified or had matters before the Supreme Court, District Court and County Court and never have been cited by any Judge or Attorney for not giving the true facts.

In past elections men seeking the office stood for what they were. They were proud to seek an office, proud of their record, proud of their qualifications and sought support from all this basis. In this year's elections we find candidates using the prestige of special groups as a substitute for their qualifications. This was true in the primary and is evident this fall,

I never have, nor will I now, attend services in any Church for "political reasons.

My record of law enforcement is above reproach and I solicit the support of the good citizens of Cass County on that basis.

Sheriff Tom Solomon

KNOW-HOW

That's what it takes not only to fill every medical prescription but to provide all your baby needs, beauty "gear," vitamins . . . fine candies!

Open evenings for family shopping

We would like to have it known to the general public that many of the members. of the Clergy in this county are actively opposing your re-election. We do not challenge that you perhaps have a minister or priest who is a friend and may have mentioned that you should run, but this is in no way to be interpreted by the public that the clergy is behind you.

For one thing, even the pastors who do not stand for total abstinence from intoxicating beverages have said that they do not see how any man can be as interested as you are in the beer industry and still even claim to be objective in the enforcement of the law. We have not forgotten your testimony in opposition to the citizens of the county and their duly elected County Commissioners in the Dennis Smith beer license application. This surely made it clear just where you stand. It would seem that you should be working in co-operation with the County Officials rather than against them. There have been occasions such as these of which we, as pastors in Cass County, would remind our fellow citizens.

Yours truly,
