**MORE PALATABLE MIXED FEEDS**

To Increase Returns USE A LETZ "Cutting Type" Grinder-Mixer

Let your dairy or beef cattle, hogs, lambs and poultry prove they will eat more of the same ration if prepared by the new Letz Grinder-Mixer. Truly, the grinder itself is the "heart" of the Grinder-Mixer.

Force-feed, slow-speed cutting action and cutting action only avoids "fines" in feed. Increases feed consumption, meat and milk production. It explains why big capacity, distinctive Letz preparation is more "natural", more palatable and profitable.

Use a Letz Grinder-Mixer, simple, sturdy and streamlined to prepare your formula feeds and to do the "tough" jobs. Final returns from livestock depend upon the correct preparation of your own ear corn, shelled corn and small grains. Use a Letz to save time, work and money. No second tractor or wagon needed. Quiet, smooth running. Long-lived. Numerous features. See your John Deere dealer. Ask him for a demonstration.
